## Grain moves as harvest nears end

#### **By CAROLYN PLOTTS**

Norton County's wheat is almost all harvested and the yield is better than expected.

Elevator managers and employees said a lot of farmers were pleasantly surprised.

"Most were pretty pleased," said Kristi Gallentine, bookkeeper year. at Norcatur Grain. "Two months ago, who would have thought we'd have a harvest like this?"

Mrs. Gallentine estimated that harvest in the Norcatur area was more than 90 percent done with just a few fields left to be cut.

Moisture didn't have any effect, she said, except after the last rain when test weights went down

## Parks head visits here

**By CYNTHIA HAYNES** Former Kansas Governor Mike Havden was at Prairie Dog State Park on Monday to accompany Gov. Kathleen Sebelius and enjoy

done," said Linda Donovan, comanager of the Norton Co-op. "The good stuff was really good, said test weights were 60 pounds per bushel, or better and that mois-

Mrs. Donovan said they had bushel. adequate storage and were busy loading out rail cars. She said the elevator had made arrangements prior to harvest for cars and another train is expected next week.

County, Hi-Plains Co-op at Lenora reported the harvest is 95 percent complete. Office manager, Patricia Otter, said there are a few

"Harvest is about 98 percent farmers who just got started earlier complete. Reports of 20 to 60 this week and those that are done haven't talked much about yields.

She said those that have said, are and the bad stuff really bad." She getting yields of about 50 bushels to the acre. Ms. Otter also said test weights coming in to the Lenora ture content was not a concern this elevator were good, averaging between 56 and 65 pounds per

Dan Mannel is the manager of the Lenora elevator. The home office for Hi-Plains is in Colby.

"All things considered, it was a good harvest, said Craig Ham-On the south side of Norton mond, owner of Long Island Grain. "Quality in this area was very good. We had lots of 62 pound wheat."

He said cutting was 98 percent rail.

bushel per acre yields were common — even in the same field.

"All in all, everyone was pleased," he said. In Almena, harvest is all but over. Facility manager at Almena Agri-Services, Rod Johnson said it was 99 percent done. Just a few

fields were left to cut. "It was a good harvest; good weather," he said. "It was a lot better than last year. Yields were better than expected. Nothing fantastic but some results were surprising."

All of the elevator operators said that they had no trouble shipping their grain either by truck or by

# Landfill waits on paperwork

**By VERONICA MONIER** Norton County is still working on getting its new landfill up and

going. Solid Waste Supervisor Curt Archibald said he had gotten the names of three well-testing companies and would get bids. The commissioner has previously asked him to see if anyone else did well-testing, because GeoCore, the county's well-testing company, was increasing their prices.

There are several test wells around the landfill that need to be tested every six months to make sure there is no contamination seeping out of the landfill into the tor Andy Nielsen that he, Dr. Jeff water supply. Both the two new wells and the old wells, which test cal Technician Diane Edgett were for contamination leaking from going to a training seminar in Alathe old landfill, are all tested at the same time.

Mr. Archibald said he has gotten three bids on a pump to be used at the landfill pit. A pump is needed for removing water from the pit and for the leachate system, which filters water at the landfill.

He said the best bid was from S&W Supply of Hays for \$779. That pump has a Honda engine, he said. This is the type of pump that Bruce Boettcher of BG Consultants, the county's engineers, recommended.

Commissioner John Miller said building. if that was what the engineers recommended then they should get it. But, he said, Mr. Archibald should talk to Roy's Sales and Service in Norton to see if he could get it cheaper before buying it from S&W Supply.

Mr. Archibald said BG has also come up with a plan for a turnaround in the bottom of the pit.

trash to be dumped from the top of ting bids.

the pit but the commissioners and Mr. Archibald decided that could allow too much trash blowing so they asked for a road to be built into the pit. A turnaround is needed to get trucks in and out of the pit.

Mr. Miller asked if the turnaround would be approved by the Kansas Department of Health and Environment.

Mr. Archibald said the engineers thought that it would.

"Let's do what we can to get this thing open," said Mr. Miller.

In other business, the commissioners:

· Heard from Ambulance Direc-McKinley and Emergency Medibama. He said the training is paid for and all they have to do is get to the airport in Kansas City.

·Learned from Mr. Nielsen that the ambulance department started going door-to-door to get survey responses last week. He said they were getting more filled out and were still getting surveys back. The surveys will be used to determine the number of the county's low-to-moderate income households and will be used to apply for a grant for a new ambulance building or to remodel the existing

 Went into two closed sessions to discuss non-elected personnel. The first was for 15 minutes with County Clerk Robert Wyatt. The second was for 10 minutes with Mr. Wyatt and County Treasurer Cindy Linner.

· Looked at the mural in the third floor courtroom. The commissioners are thinking about getting Originally BG had planned for it touched up and looking into get-

the Fourth of July.

Mr. Hayden, now the Director of the Kansas Department of Wildlife and Parks, stayed out of the limelight on Monday but he did talk to reporters as he relaxed at a picnic table in the park.

The Wildlife and Park Department oversees 24 state parks, including Prairie Dog, Mr. Hayden said. He and his department is continually working on issues which include water and funding, restrooms and showers at campgrounds and other facilities for boating and wildlife with a shrinking number of dollars from the state.

Mr. Hayden said it will be necessary to make changes in the park system and he feels it is necessary to work with the Legislature to ensure a future for Kansas outdoor recreational facilities.

in the future," he said, "we'll have to change .. "

The former governor said that he works well with the Senate but not so well with some members of the House.

Kansas Secretary of Wildlife and Parks talked to Deena Wente, a reporter for KQNK radio during Fourth of July festivities at Prairie Dog State Park on Monday.

Several House members are not said.

convinced the outdoors is worth putting money into, he said. They just don't see the value.

Representatives should have lake, to make sure there is enough been at the park on Monday to see water for fishing, boating, camp-"If we want a state park system the show and watch how people ing and water sports. were getting value out of the outdoors.
