PUBLIC NOTICE

Environmental Assessment

Published in The Norton Telegram on Friday, June 30 and Tuesday, July 4, 2006. (2T)

Notice of the Availability of an Environmental Assessment
The USDA-Rural Utilities Service has received an application for financial assistance from the City of Norton. As required by the National Environmental Policy Act, the Rural Utilities Service has prepared an Environmental Assessment that evaluated the potential environmental effects and consequences of the proposed project. This notice announces the availability of the Environmental Assessment for public review and comment.

The proposed project consists of an addition of three bulk storage facilities, rehabilitation of the two primary clarifiers, renovation and addition of a third filter, installation of a new chlorine contact tank and chemical feed building at the location of the existing water treatment facility. The existing facility is located at the south extension of Johnson Road and Funston Street in the City of Norton, Kansas. The proposed project will convert floodplain and wetland areas. The purpose of this notice is to inform the public of this proposed conversion and request comments concerning the proposed project, alternative sites or actions were not a feasible alternative because of the existing water treatment plant hydraulics.

Copies of the Environmental Assessment are available for review at USDA-RD, 2715 Canterbury Road, Hays, KS 67601. For further information contact David Barber at (785) 628-3081 Ext. 400. Any person interested in commenting on this proposed project should submit comments to the address above by July 30, 2006.

A general location map of the proposal is shown below.
