# Women's club shares potluck lunch in April

By MARIE WENDEL

Nine members of the North Dividers Family and Community Education unit met April 20 at the 4-H Building for a noon potluck luncheon.

Ella Mae Schulze and Ruth Lofgreen were hostesses. The Northwest District Recognition Day will be held May 7 at Bird City with Fleta Hanlon and Nora Washburn planning to attend.

Members decided to have each club member bring canned goods for God's Pantry at each meeting.

The lesson was given by Mrs. Schulze on "Grandparents as Caregivers". She shared how, many times, grandparents are caring for and raising their grandchildren. She said if you find yourself in that situation, a plan has to be made for discipline and for loving each other. The financial situation also needs to be addressed and a guardian needs to be appointed for the children in the event the grandparents are unable to continue caring for the children.

# HANSEN MUSEUM

By SHIRLEY HENRICKSON

The Dane G. Hansen Memorial Museum takes great pride in bringing to Logan the exhibit "Married to Adventure". This collection of photographs is from the travels of Martin and Osa Johnson. "Married to Adventure" recounts the daring world travels of Martin and Osa Johnson as illustrated by their unprecedented photographs and writings.

In a time when most Americans never ventured beyond their own shores, the couple brought home the sights — and later sounds — of faraway places that were as wild as they were beautiful. In their films and books, they introduced the public to exotic peoples and presented close-up encounters with epic creatures of lore and legend. The images the Johnsons shined on silver screens across the nation electrified audiences. Each expedition contained heightened thrills and crossed yet another frontier of both exploration and cinematography. Many Americans still thought of Africa as the "Dark Continent" a treacherous, foreboding place. Through their

films, the Johnsons shattered this common but outdated perspective. Martin and Osa's Africa was a beautiful place, overflowing with amazing landscapes, huge herds of animals and fascinating peoples and it was only momentarily dangerous when they got too near the animals.

We invite you to travel with Martin and Osa as we recall their adventures through their photographs and a handful of artifacts and personal memorabilia collected by, or in honor of, these two pioneering naturalists. Though many of the wildernesses explored by Martin and Osa have disappeared, through their lens you can still glimpse an untouched world and relive the age of exploration through their amazing adventures.

Our May Artist of the Month is Joyce Underwood from Everest. Ms. Underwood has some beautiful stained glass pieces.
