Fall harvest in full swing; milo and corn coming in

(Continued from Page 1) to be dryer, however, if it's going to be piled on the ground because aeration of the grain can't be monitored as well on the ground.

As of Friday the Norton elevator had accepted 635,199 bushels of corn and 429,105 bushels of milo.

The Reager elevator had accepted 11,760 bushels of milo. That grain was taken to the Edison location in order to make room for corn. Reager has received 384,385 bushels of corn. The Clayton elevator has received 310,223 bushels of corn and 42,346 bushels of milo.

Student group entertains the elderly

The Norton Chapter of Family, Career and Community Leaders of America (FCCLA) held its annual fall party at the Andbe Home last Wednesday.

Darlene McEwen, resident resource coordinator at the Andbe

Home, said the Norton FCCLA has come to the Andbe Home for the past several years to entertain residents with the fall party.

This year, she said, the students, who were all dressed up in Halloween costumes, helped residents make decorative pumpkins using orange material, a green

construction paper leaf and a roll of toilet paper. After that, she said, they played "Ghost" Bingo, using candy corn as Bingo markers.

To top off the program, they brought apple and pumpkin pie for the residents to enjoy.

"This is a really nice thing they do," she said. "The residents had a

wonderful time. One said, 'I could love you this much' and held out their hands to make a big line."

Mrs. McEwen said the fall party is the big event FCCLA does at the Andbe Home. Other school groups come up to do Christmas programs. All of the programs done are appreciated, she said.

A fire completely destroyed what was once Don and Marilyn Lowry's shop garage Friday afternoon.

Firemen work together to stop blaze

(Continued from Page 1) get power back to the residents, whose home is close to the burned shop. He said approximately eight

or nine firemen responded from the Almena department, with about the same number of men showing up from Norton rural.

The damage, he said, could be considered a total loss.

Endowment gift grows at heritage foundation

The Kansas Agriculture and Rural Leadership Program received an additional \$10,000 this week to add to the \$20,000 endorsement deposited in 2006 by a charter board member.

Florence and Ted Metcalf developed the fund at the High Plains Heritage Foundation, based in Liberal, Kan. KARL, Inc. will earn funds from the investment to be used specifically for the educational efforts of the Kansas Agriculture and Rural Leadership Program.

Florence Metcalf served as the first curriculum committee chair of the board of directors for the KARL Program, said Jack Lindquist, president of the private non-profit educational organization.

With the gift, the Metcalfs have joined the select group of major en-

dowment donors known as KARL Legacy Benefactors. KARL, Inc., is a private, not-for-profit organization dedicated to identifying and developing leadership in order to enhance the quality of life for all Kansans. KARL's two-year budget is approximately \$450,000 for 30 class participants. Participants pay a tuition fee of \$3,000 and donors contribute the remaining \$12,000 per class member.

KARL funding comes entirely from private sources through donations from individuals, businesses, organizations, foundations, and corporations. KARL, Inc. is a 501c3 charitable, educational organization. More information about the KARL program is available by visiting www.karlprogram.com or call (785) 532-6300.

Salsa helps with veggie, fruit servings

Do you have trouble getting those five to nine servings of fruits and vegetables in your daily diet? Are you searching for simple fruit and vegetable recipes for the holidays that are a little different from the traditional ones? Does your family love salsa?

If you answered yes to any of these questions, here's something for you to consider.

On Wednesday, Nov. 7, Tranda Watts, Multi-County Extension Specialist, will present Sensational Holiday Salsas! The program will begin at 12:15 p.m. at the 4-H Building in Norton and will conclude at 1 p.m. — just in time for working people to get back on the job.

What will you learn if you come? Preserving and preparing salsas will be the main topic of discussion. However, some salsas will be prepared and there will be samples of several salsas which

Home ed

Watts,
Extension
specialist

would be appropriate for use during the holiday season this year. Hand-outs including recipes will

be available to pick up. You are welcome to bring a sack lunch as samples will not be enough for a meal. Plan to attend and bring a friend.

If you plan to attend, please call K-State Research and Extension, Norton County at 785-877-5755 and leave a message with Tammy or Keith so that we can provide enough samples and hand outs.

You may also e-mail: twatts@oznet.ksu.edu to pre-register.
