Tuesday Study Club travels to Atwood

By LOUISE CRESSLER
Correspondent

The Jennings Tuesday Study Club made a trip to Atwood on Sept. 23. Kristi Hawkins of Kristi's Quilt Farm demonstrated using a long arm machine to finish a quilt. She showed methods to mark a pattern and ran her machine using a pantograph.

We viewed several of her free-hand designs, one of which won a blue ribbon last May at the International Machine Quilters Showcase. Kristi then joined the club at the Park Hill Restaurant for lunch.

After lunch, President Helen Rhodes opened the meeting. Discussion about participating in the Angel Tree led to a motion supporting this project once again. Ruth Chance, Wilma Mader, Joan McKenna, Helen Rhodes, Jean Skubal, Lynn Tacha and Neoma Tacha interpreted "In Stitches" for roll call.

The October meeting will feature Ann Gallentine's knitting.

Jennings City Council meet Thursday Oct. 2 in the Senior Center. Louise Cressler, council president, called the meeting to order. Abbie Hisson and Tammy Fredrickson of Fredrickson Insurance presented and explained insurance coverage and a quote from Employers Mutual Casualty Insurance. This quote is so much under the Allied, which the city now has. The council voted to insure with Employers Mutual Casualty Insurance.

Christmas street decorations were discussed. Council voted to buy 4 new decorations this year.

The carpeting in the Senior Center was discussed with no decision made at this time. Two bids had been received.

Millings will be put in several alleys when Leroy Spesser can haul it.

A generous gift was given to the City of Jennings from the Maurine Erhlich estate. We thank them for this.

Next meeting will be November 6.

Burning within the city limits will be permitted Oct. 15 through Oct. 31. Use caution when burning.

The recycle trailer was brought to Jennings Thursday and may be here only until Wednesday. It is located at the Community Hall yard. A regular schedule will be set up for us to have it each month.

Re-Elect
John Faber
120th
District
Representative

"During the last twelve years that I have served in the House of Representatives, I have cast over 10,000 votes. I have worked hard for the best interests of our district, studying the issues and their importance for the citizens of Northwest Kansas as well as for the state.

Kansas faces many challenges, but I am optimistic about our future. I want to continue developing new and innovative ways to create economic opportunities for rural Kansas. I appreciate the trust that my constituents have placed in me, and I will continue to work hard to serve their needs in Topeka."

John has the experience we need and the vision to succeed:

- Votes to protect "home owned carnivals" from government regulation.
- Also serves on the Education Committee, Education Budget Committee, and Joint Committee on rules and regulations.
- Understands the importance of hard work and cooperation and the issues facing the 120th District.

Colonoscopy. The Tests No One Wants To Talk About.

Colorectal cancer is the third most common cancer in the U.S. - and the second deadliest. If people only knew the benefits of colorectal screening, and colonoscopy in particular.

Cancer Prevention.

Colon cancer screening and removal of pre-cancerous polyps can actually prevent cancer. Colonoscopy is a simple procedure with demonstrated effectiveness in detecting cancer or pre-cancerous polyps at a much earlier stage.

Improved Survival.

Early detection markedly improves the chances of long term survival. If detected early, the five-year survival rate is as high as 91.4%. Survival rates drop dramatically for colon cancer detected in later stages.

Test To Detect Cancer

If you are among the 50% of all Americans

who have not had a recent colorectal cancer screening test, talk to your physician or call Southwind Surgical to schedule a colonoscopy when we're in your local hospital. Our surgeons travel throughout the region providing outreach services.
