RUS will either prepare its own independent Environmental Assessment or adopt the ER prior to its decision to grant financial assistance for the proposed facilities. Prairie Land has determined that this project is necessary for reliable service and to meet the requirements of the Regional Transmission Organization (RTO), Southwest Power Pool (SPP) This project also provides for additional system load growth for Prairie Land The proposed Rhoades to Phillipsburg 115-kV transmission line is approximately 30.6 miles in length and will generally require a 100 foot wide right-of-way. The proposed line will run along section lines from the Rhoades substation (located in Section 10, Township 3S, Range 23W, Norton County, Kansas) to the Phillipsburg substation (located in the middle quarter of Section 23, Township 3S, Range 18W, Phillips County, Kansas).
