

There is a wonder that surrounds the health care profession.
We see it. We celebrate it. We're part of it.

Norton County Hospital

is a place of care and compassion, of hope and healing.

During National Hospital Week, Norton County Hospital is celebrating our employees' unwavering dedication to our patients and our practice. Because of them, this is a hopeful place. The gratitude we voice on this very special week is a mere reflection of the respect and admiration we feel throughout the year. Their efforts matter and we are fortunate to have them as part of our health care family.

Healing happens here. That's a tribute to our work. On behalf of the patients and community, accept our heartfelt thanks for a job well done. You make a difference every day.
