"Effective Broadcasting"

Farmers face a constant battle against drought or flooding, plant disease or insects, or many other elements that can determine the effectiveness of the harvest. Christians face an adversary, the devil (1 Peter 5:8-9; Ephesians 6:12; 2 Corinthians 4:4) who constantly tries to destroy the faith of the Body of Christ and keep those in this world blind to the Gospel.

Just what is the priority of the Bible believing, preaching, teaching church? Just what seed is the church of Jesus Christ to broadcast? Where is it to be broadcast? How is the seed fertilized? What is the harvest?

I would propose to you that the Body of Christ that God will use to evangelize the next generation has members who are specialized in different methods of broadcasting the seed of God's Word in the fields of the world. The church that has a lasting effect on the present and future generation will be efficient in broadcasting the life giving written Word of God. The cutting edge church will be committed to the foundational truths found in God's Word, while applying modern tools to getting the Word of God outside the church walls.

Although beautiful buildings are nice and missions to the poor and lost souls are a necessity, there is not enough time or money spent on "Seed" planting that produces a genuine crop for Christ and feeds the soul of mankind. Faithful seed planters of the Word of God do not fall into the same pattern as the institutionalized church. Dr. Lloyd Jones wrote, "we are not to fight... in our own strength, power, or with our own ideas; we are to use the Word that the Holy Spirit of God Himself has produced."

To help the Body of Christ grasp her priority in publicly proclaiming the Word of God I have spent approximately 200 hours on two messages which enable the true church to rediscover God's heart in His charge to the soldier of Christ.
