Prairie Dog Creek WTAP Sign-up Starts October 1

Published in The Norton Telegram on Tuesday, September 28, October 5, 12, 2010.

(3T)

The State Conservation Commission will begin accepting applications for the Water Right Retirement Program, WTAP, beginning October 1.

WTAP is a voluntary, incentive-based program designed to help restore aquifers and streams in critical areas. The Prairie Dog Creek basin has been selected as a pilot project target area because it is significant in the State of Kansas' efforts to maintain compliance in the Republican River Compact with the State of Nebraska. The "High Priority" areas of this basin in Phillips, Norton, Decatur, Sheridan and Thomas counties have been designated to be in need of stream restoration and aquifer recovery and are now closed to further appropriations of water.

Applicants who are selected for WTAP grants are compensated by the State Conservation Commission in exchange for the permanent retirement of a water right. Priority is given to retiring water rights in areas which would have the greatest impact on the stream system. A fixed rate price of \$2,000 per acre-foot of Historic

Consumptive Water Use is available for eligible water rights to be retired. **WTAP grants are approved on the basis of competitive bids.**

To be eligible, water rights must have been actively used in the last 10 years. Dryland farming is permitted after a water right is retired. Limited irrigation can be temporarily allowed to establish a permanent cover on the land being transitioned from irrigation. Partial water right reductions can also be considered for retirement grants.

The Fall sign-up period is **October 1, 2010 through November 15, 2010.** If program funds are still available, a Spring sign-up period will be held on February 15 through March 31, 2011.

For more information, contact Steve Frost, Water Conservation Program Manager, at (785) 296-8964. Complete WTAP rules and regulations, applications, maps, and other details are posted on the SCC web site at www.scc.ks.gov. Information and assistance can also be provided at the Kansas Department of Agriculture, Division of Water Resources Field Office in Stockton, (785) 425-6787 or at the NWKS Groundwater Management District No. 4 in Colby, (785) 462-3915.
