

Bazaar auction

The annual St. Francis of Assisi Catholic Church Parish Bazaar was held Sunday at the parish hall. A traditional turkey dinner with all the trimmings was served to a very large crowd, as well as the sale of handicrafts, fancy work and baked goods. The afternoon's activities came to an end after the quilt and other items auction. Pictured, Allan Miller and Jim Pfannenstiel helped to display the auction items as Lance Kinderknecht did the auctioneering.

Leading-edge chemotherapy treatments are now available close to home!

"With nurses so thoughtful and caring, I feel right at home. And the infusion area is so quiet I can often enjoy a snooze!"

-Leota Brown (With her pal, Bubbles)

Leota Brown is one busy lady. She's a seamstress, hat maker, cake decorator, cross-stitch designer, and master angler. She's best friend to her

dog, Bubbles, too. Leota has better ways to spend her time than driving 75 miles to North Platte for chemotherapy treatments.

Receiving chemotherapy treatments in McCook is so important for busy people like Leota. Our new Oncology Services suite offers leading-edge chemotherapy treatments in a spacious area for infusions, with an area dedicated solely to chemotherapy treatments coming soon.

Leota works with visiting oncologist, Dr. Maria DeVilla of the Callahan Cancer Center in North Platte, and enjoys our certified chemotherapy nurses so much, she thinks of them as family.

October Business in the Spotlight

Jay's Woodwork Shop
Owner: Ed Witt
Address: 907 N. Norton
Phone: 785-877-2732
Custom wood and cabinet shop
Established Jan. 1, 1953

Business Description: Custom Cabinets, countertops, and other wood related jobs

Jay Fawcett had worked for Morris Brown at M.N. Brown Plumbing & Cabinet shop located at 206 N 2nd Street, which today is the Thrift Shop.

In 1952, Roy Banks bought Brown's Plumbing business and operated it in the same location.

On Jan. 1, 1953, Jay Fawcett bought out Brown's Cabinet Shop supplies and hand tools. He rented a white wooden building on the corner south of the Thrift Shop that was owned by the Browns. This became Jay's Woodwork Shop, located at 202 N 2nd Street.

Jay paid \$40 a month rent on the building and \$20 a month rent on Brown's power tools. Then in October 1957, Jay bought Brown's power tools but continued to rent the building until March 1964.

In 1963, Jay purchased a lot and built the present day Jay's Woodwork Shop located at 907 N Norton Ave, just north of the old Kansasland Tire Shop. Jay would have several employees work for him over the years.

In 1976, Jay was looking for a hired man that he wouldn't have to train. Ed Witt had graduated in May from Mid-Plains Vocational-Technical College in North Platte, Neb., with an Associate in Applied Science degree in Building Construction. Jay knew Ed's grandparents and word reached Ed about the job opening. Ed thought it would be a great opportunity and started working for Jay and Vida on June 14, 1976. He continued to work for them until Jay's death in February of 1985. On June 1 of 1985, Ed bought the business from Jay's wife, Vida. Ed didn't see any reason to change the name of the business because Jay was a great craftsman and the shop had a distinguished reputation. Ed has owned and operated the business ever since.

One of the things Ed likes the most about this business is being able to bring his customers'

ideas to reality and have them pleased with the finished product. Word of mouth can be your best advertisement.

"I have enjoyed knowing and working for many great people over the years, and Norton has been a great place to live and raise a family," Ed said.

Probably one of the biggest challenges is trying to compete price-wise with factory cabinets and other items.

"They are done on a large production line. I build them one cabinet at a time. Custom cabinets from my shop are built better to last, and cost more because of the extra time involved."

Some of the items Ed creates include gun cabinets, entertainment centers, kitchen and bath cabinets and countertops, bookcases, dressers, armoires, and china cabinets. He also does refinishing work and furniture repairs.

Ed's vision of the future includes updating and installing a finishing room, and updating some equipment. He says he stays busy because of his wide range of work. "I'm willing to try anything," Ed confessed.

A PROPOSITION to amend section 1 of article 11 of the constitution of the state of Kansas, relating to classification and taxation of watercraft, to be submitted to the electors of the state at the general election to be held on November 6, 2012.

House Concurrent Resolution No. 5017

§ 1. System of taxation; classification; exemption. (a) The provisions of this subsection shall govern the assessment and taxation of property on and after January 1, 2013, and each year thereafter. Except as otherwise hereinafter specifically provided, the legislature shall provide for a uniform and equal basis of valuation and rate of taxation of all property subject to taxation. The legislature may provide for the classification and the taxation uniformly as to class of recreational vehicles and watercraft, as defined by the legislature, or may exempt such class from property taxation and impose taxes upon another basis in lieu thereof. The provisions of this subsection shall not be applicable to the taxation of motor vehicles, except as otherwise hereinafter specifically provided, mineral products, money, mortgages, notes and other evidence of debt and grain. Property shall be classified into the following classes for the purpose of assessment and assessed at the percentage of value prescribed therefor:

- Class 1 shall consist of real property. Real property shall be further classified into seven subclasses. Such property shall be defined by law for the purpose of subclassification and assessed uniformly as to subclass at the following percentages of value:
 - (1) Real property used for residential purposes including multifamily residential real property and real property necessary to accommodate a residential community of mobile or manufactured homes including the real property upon which such homes are located.....11 1/2%
 - (2) Land devoted to agricultural use which shall be valued upon the basis of its agricultural income or agricultural productivity pursuant to section 12 of article 11 of the constitution.....30%
 - (3) Vacant lots.....12%
 - (4) Real property which is owned and operated by a not-for-profit organization not subject to federal income taxation pursuant to section 501 of the federal internal revenue code, and which is included in this subclass by law.....12%
 - (5) Public utility real property, except railroad real property which shall be assessed at the average rate that all other commercial and industrial property is assessed.....33%
 - (6) Real property used for commercial and industrial purposes and buildings and other improvements located upon land devoted to agricultural use.....25%
 - (7) All other urban and rural real property not otherwise specifically subclassified.....30%

Class 2 shall consist of tangible personal property. Such tangible personal property shall be further classified into six subclasses, shall be defined by law for the purpose of subclassification and assessed uniformly as to subclass at the following percentages of value:

- (1) Mobile homes used for residential purposes.....11 1/2%
- (2) Mineral leasehold interests except oil leasehold interests the average daily production from which is five barrels or less, and natural gas leasehold interests the average daily production from which is 100 mcf or less, which shall be assessed at 25%.....30%
- (3) Public utility tangible personal property including inventories thereof, except railroad personal property including inventories thereof, which shall be assessed at the average rate all other commercial and industrial property is assessed.....33%
- (4) All categories of motor vehicles not defined and specifically valued and taxed pursuant to law enacted prior to January 1, 1985.....30%
- (5) Commercial and industrial machinery and equipment which, if its economic life is seven years or more, shall be valued at its retail cost when new less seven-year straight-line depreciation, or which, if its economic life is less than seven years, shall be valued at its retail cost when new less straight-line depreciation over its economic life, except that, the value so obtained for such property, notwithstanding its economic life and as long as such property is being used, shall not be less than 20% of the retail cost when new of such property.....25%
- (6) All other tangible personal property not otherwise specifically classified.....30%

(b) All property used exclusively for state, county, municipal, literary, educational, scientific, religious, benevolent and charitable purposes, farm machinery and equipment, merchants' and manufacturers' inventories, other than public utility inventories included in subclass (3) of class 2, livestock, and all household goods and personal effects not used for the production of income, shall be exempted from property taxation.

Explanatory statement. This amendment would allow the legislature to classify and tax watercraft upon a basis different from other property. A vote for this proposition would permit the legislature to provide for separate classification and taxation of watercraft or to exempt such property from property taxation and impose taxes in lieu thereof. A vote against this proposition would continue the taxation of watercraft in the same manner as all other property.
