County looks at insurnace *Favorite foods...*

By Cynthia Haynes

c.haynes@nwkansas.com Insurance isn't very exciting but like indoor plumbing it's a necessary of modern life in America.

Norton County has its insurance through KCamp, an organization of counties similar to a co-op or credit union, said Larry Sharp, member services representative for the group.

Mr. Sharp visited with the Norton County commissioners on Monday about their risk management and their liability insurance.

He said that he would like to visit each county commission twice a year but most of them meet on Mondays so with almost 60 member counties, its been about 10 months since he's been to Norton.

He gave the commissionerselect Dr. R.A. Peterson and Charles Posson a short history of KCamp noting that in the 1990s several rural counties were no longer able to purchase insurance because they couldn't find anyone to insure them.

They banded together to form KCamp, of which Norton County has been a long-time member, he said.

The counties' insurance program is partially self-funded, he said, but KCamp does have reinsurance for really large claims.

Only counties or close political subdivisions of counties like the extension service are eligible to join, he said.

Part of the county's premium is based on its loss ratio, he said. Say a county pays \$100,000 in premiums and KCamp has to pay out \$50,000 in claims, that would have a 50 percent loss ratio, he told the commissioners.

The company looks at a fouryear average, however, so one bad year will not make premiums go sky high.

That said, he noted, 2011 and 2012 were not exactly banner years for Norton County since the loss ratio exceeded 100 percent for 2010 and 71 percent for the first half of 2012 since figures are available for after July. "Everyone has some bad

years," he said. The company usually shoots

for a 60 percent ratio. The biggest problems with liability are usually in law enforcement, where the officers can't win for losing sometimes. If they take a person in and something happens, they're liable. If they ignore the situation, they're liable.

In 2012, he said, Norton county had more property claims than liability claims. This is unusual, he said, but ice and snow account for most of that and there isn't much the county can do about the weather.

Since July, County Clerk Robert Wyatt said, the county has not had many claims except for vehicle-deer accidents.

Commissioner Carolyn Applegate noted that the commissioners and the department heads meet quarterly and the county's safety committee gives a presentation each time including handouts for the supervisors to take back to their people.

The county gets a discount on its insurance if it has a working safety committee.

"We're taking this discount very seriously," she said.

The insurance group offers \$2,000 each year to each of its members to use on risk mitigation projects such as training, Mr. Sharp said.

The commissioners said that last year they used the money to buy a sign machine for the county shop and this year they are looking to buy tarps to cover

the county trucks so there will be less loss from flying debris.

Mr. Sharp said that would be a great use for the money as broken windshields account for a lot of small claims.

City and county law to remain separate

c.haynes@nwkansas.com The City of Norton wants to keep its own police force.

Mayor David Corns and City Administrator Rob Lawson told the Norton County Commission that the city council voted, at its Dec. 19 meeting, to turn down any effort to combine the city and county law enforcement.

Mr. Lawson said that there seems to have been a lot of speculation lately about the city and county combining the law enforcement jobs. So, the council talked about it and made a decision on the subject.

The city has six officers plus a police dog, which is considered an officer by the state, Mr. Lawson said.

Newly sworn in commissioner Dr. R.A. Peterson said that he was interested in looking more at savings that would result in a combination of the sheriff's de-

partment and the city police. (La Crosse) has combined ser-

vices and saved quite a bit of money.

"The savings are nice," he said. "But, the city isn't willing to cut the services."

Mayor Corns noted that if there is a really big problem, Lawson said, adding that the having both city and county law enforcement capabilities allows for more officers to respond.

The new commissioner indicated that he would still be corrections to have prison work studying the combination.

On Thursday, he said, the secretary of Wildlife and Parks will be here to start work on the Kansas Ringneck Classic, the governor's annual pheasant hunt, which will take place the weekend after the season opening. The event has been held in Oakley for the past two years but will be held in Norton this year and will move on to Scott City later.

The economic development group is starting to work on some sponsorships, Mr. Sproul said, including work to get national television and magazine coverage of the event.

"It's already shaping up to be a busy January," he noted.
