## ARE YOU FRUSTRATED

80% of everything you perceive, comprehend and remember depends on the effectiveness of your visual system. Good vision is a very complex process with over 2/3 of all pathways to the brain being filtered through the visual system. Vision problems like lazy eye, poor eye-hand coordination and the inability to move and track your eyes together or the inability to focus clearly only adds to your daily frustration.

Prairie Wind Eyecare offers a complete Vision Therapy Program designed to help you learn, relearn and reinforce specific skills to eliminate vision problems and relieve your frustration. Dr. Aldridge will prescribe specific tasks, done under controlled circumstances that will coordinate eye muscles, straighten the alignment of the eyes, improve eye movement, eye focusing ability. Your particular frustration treatments will be prescribed just for you. This is just part of our commitment to the total eye health of your family and our community.

If you suspect that someone in your family would benefit with a complete eye health exam, call today to schedule a time we will devote totally to your frustration.
