Student attends academic camp

Jessie Smith recently returned from the Fort Hays State University Math and Science camp held on the university's campus June 8 through June 13. Only 24 girls from the state of Kansas were selected to attend camp based upon a student essay and teacher recommendation. The essay was based upon what you most like about math and science, and what you are most curious about regarding those subjects in addition to what you would like to do in the future regarding math and science.

Smith

"Camp Scene Investigation" camp required the girls to solve a crime that had occurred. Several techniques were used to assist the girls in determining the actual suspect. Global Positioning System (GPS) technology was used to locate the crime scene and stolen goods. Soil samples were analyzed to determine the location

of a crime. Ink samples were analyzed to eliminate suspects. Mathematical formulas were used to figure out who was at the crime scene and blood splatters at the crime scene were studied.

Sessions were also conducted by the Hays Police Department to determine the speed of a car from evidence remaining after a crash. DNA fingerprinting was also studied. Jessie discovered she belongs to a group of 5 percent of the population who has an arched index finger. Careers in math and science were also conducted with sessions led by professors. The girls worked hard during the day experiencing and applying math and science. They had a chance to unwind at night with activities such as a spa night, swimming, astronomy and geocaching.

A power point presentation created by each group was given on the last day to parents.

"The camp was awesome," said Jessie. "I wish I could go again!"

Jessie's group successfully solved the crime.

Jessie is the daughter of Ned and Deb Smith.

Foot race to attract county running teams

The Lake Atwood County Challenge Race begins at 7:30 a.m. on Friday, July 4. This is the 28th running of the event.

The men will run four times around the lake for a distance of 8 kilometers (5.0 miles) and the women will run twice around the lake for a distance of 4 kilometers.

Every age-division finisher scores points for his or her county. In nearly every race, the team having the most participants won

the competition.

There are no awards and no entry fees. Runners take part for the honor of his or her county. All you have to do is show up.

County residence is not a requirement. Bring an out-of-county friend to the race and have that friend run for your county.

The County Challenge Race is the first event of the annual Lake Atwood Day celebration hosted by the Atwood Rotary Club.
