

Mr. and Mrs. Josh Koelsch

Couple united in outdoor wedding

Ashton Knorr and Josh Koelsch She wore a floor-length black-satemony on Sunday, Sept. 6, 2009, at the Koelsch family farm in Great Bend. Reverend Dan Pate assisted by Aaron Koelsch, cousin of the groom.

Parents of the couple are Ray and Stacy McNett of Great Bend, Garry Knorr of Salina and Ron Bend. The bride is the daughter of the late Bruce Duffeld.

Grandparents of the couple are the late Jan Morgan, Junior and Deloris Knorr of St. Francis, J.D. and Ramona Duffeld of Burlington. Colo., June Koelsch of Great Bend and the late Victor Koelsch and Marge Bauman of Shawnee and the late Vincent Bauman.

The bride, given in marriage by her mother, wore an ivory-haltered satin gown with a chiffon overlay. The gown was accented with hints of lace and crystals around the sweetheart neckline and midlength train, while the black-satin ribbon around the empire waist hinted at a modernistic theme. She also wore a sheer fingered-tipped length veil. The bride carried longstemmed ivory gladiolas.

Dykota Knorr, sister of the bride, served as maid of honor. Bend.

Joseph Jay Richardson

Fair theme selected for 2010 fair

By Linda Schneider dublinlms@gmail.com

The Cheyenne County Fair Board opened the first meeting of the year with the treasurer's report and the update on the tables and chairs for the fairgrounds. In addition, the 2010 fair theme was chosen.

Prior to the meeting, board members had received a copy of a letter from Gary Rogers, emergency manager, which concerned the fair grounds being designated by state and federal governments as the county's unloading site for hoof and mouth disease holding and quarantine location. The board invited Mr. Rogers to report on the information.

Fair theme

Motion carried that the 2010 fair theme would be "Cowboy Boots and Country Roots" submitted by St. Francis Lawn Ridge 4-H Club. They also won the pizza party.

Treasurer's report Lacy Reed, treasurer, read the financial statement to the members and motion carried to pay \$998.65 to bills and invoices.

In an update on the tables and chairs that had been donated, Jared Douthit, member, reported there had been a unknown miscommunication concerning the cost of the furniture and was \$391 short on the final payment. The board agreed to pay the

Mrs. Reed reported that the fair board had not received the allotment from the county; however, she continued, it was not typically received until after the 15 of the month.

The board agreed to accept \$200 from an anonymous donor.

Quarantine designation

Mr. Rogers began by explaining that as the emergency manager for the area, he is required by state and federal regulations to have a emergency plan that includes an area for unloading, holding, testing, and quarantining animals that are suspected to have hoof and mouth dis-

"Hoof and mouth is probably the most devastating disease to livestock there is," Mr. Rogers said.

He continued to explain that in order to meet the criteria of state and federal regulations he is required to have a "table talk" orientation meeting that is open to the public on Thursday, Jan. 14.

Mr. Rogers said that the fairgrounds is county property, that is why it had been chosen. He went on to say that if somewhere in Cheyenne County, whether on county roads or highways running through the county, all traffic will be stopped (in an emergency).

In addition, within the emergency plan, provisions have to be made to provide an area where the animals can be unloaded and quarantined for a donation. during testing. Also, the county will

livestock during their stay.

"Because of the fairgrounds being the designated location, it is probably in the best interest to have a member attend the meeting," said Mr. Rogers.

The federal veterinarians and Homeland Security coordinators will be on hand to present important information.

Dick Bursch, fair board president, asked Mr. Rogers who designated the fairgrounds as the unloading site. Mr. Rogers told the members that since the fair grounds are county owned, it can be included in the county emergency plans.

"Let's hope it never happens, you realize that the fairgrounds does not have the equipment to take of the animals," said Mr. Bursch. "Plus it will ruin the fair.'

Mr. Rogers noted the concern by saying that it would devastate the whole region, including the economical impact it would have to the area. Adding, only second in devastation to a pandemic flu.

Taking into account Mr. Bursch's comment on not having the proper unloading chutes and equipment, or area to facilitate such a feat, Mr. Rogers replied that he understood that. He said that what was needed was the arena area and it could be fenced off with wire. Members were quiet as Mr. Rogers explained how water could be brought in along with

"The county plan needs a designated area for quarantined animals,' said Mr. Rogers. "And it has been a while since the county's emergency plan has been updated."

He said the meeting is important and members should attend. It is scheduled for 6:45 p.m., on Thursday, Jan. 14 at the Emergency Building. There will not be a rescheduling in case of weather inclement, the meeting would go on.

Fair events

Mr. Bursch asked Clay Zimbelman, member, if the rules for the derby were in place. Mr. Zimbelman said there were some minor changes in the wording on the bumper brackets and unless the members want to see the changes, he would just send

Gary Cooper, secretary, suggested to the members an idea of having a local talent show contest and possibly split the gate money as incen-

"It would give a night of musical entertainment, local people with family and friends coming to watch," said Mr. Cooper.

Mrs. Reed added that it could also be used to give scholarships. In addition, she said that Wednesday night would be a good night. Karol Lohman, member, suggested asking

It was suggested to have the ropbe responsible for the care of the ing and barrel racing on Thursday

power on Friday night. Mr. Zimbelman said that he heard a lot of positive comments on the horse verses horsepower.

Mr. Bursch mentioned that there had been some interest in bringing back the mud bog again. He said the reason for not having the mud bog was because kids under 16 years of age were not allowed to use 4-wheelers for safety reasons. Members discussed the pros and cons of the side work involved in setting up the event. Mrs. Reed asked about having a horse verses horsepower in the mud bog. There was no further discussion.

The members continued to discuss several other events to keep in mind. Mr. Bursch told the members they can be considered; however, it is time to get the events nailed down and brought to the next meeting so the committees could get started.

High gas bill

Once again the members discussed the high gas bill in the 4-H building. This has been a concern Thursday, Feb. 4.

night and the horse verses horse- for some time and the members dis-

cussed options of lowering the bill. The gas company called Mrs. Reed and told her the meter was go-

ing like crazy. "I got John (Finley) and went to look and the meter wasn't even

moving," said Mr. Bursch. The furnaces were off and the doors were shut, Mr. Bursch instructed Mr. Finley to call Lampe and ask them to inspect the furnace. Mr. Finley said after the inspection, Lampe found nothing wrong with the furnace; however, Lampe mentioned the thermostats in the large room could not be set lower than 50 degrees without turning the furnaces

It was suggested to find thermostats that could be programed to schedule turn offs. In addition, to be able to program lower temperatures.

Mr. Bursch instructed Mr. Zimbelman to purchase one if it was \$100 or less.

Next meeting.

Care and support offered by group

Dying, death and grief are sub- comfort the grieving. Hospice until directly confronted with their profound realities. Yet, when that time comes, Hospice Services provides experienced support and guidance. Hospice Services remains steadfastly committed to support those who are dying and grieving.

Hospice provides compassionate physical, emotional and spiritual support to terminally ill people and their families. Hospice provides care and support for everyone who needs hospice care, whether or not the person or family can pay for the services. Hospice covers the unpaid care for terminally ill patients who lack financial resources and also absorb the gap between patients' insurance and the actual cost of

Included in the hospice mission is the commitment to guide and

jects most people are apt to avoid Services' counselors are available to consult with individuals, schools, healthcare facilities, and organizations throughout the communities they serve. They also provide grief support re-

Because collaborating with other agencies creates synergy that benefits everyone involved, Hospice Services staff participates on local, state, and national healthcare committees and boards.

A family member recently shared how grateful she was that the hospice staff not only cared for her mother but also about her. May it always be said that Hospice Services provides extraordinary care for terminally ill patients and cares deeply about Hospice Services communities, helping to make those communities a better place to live, work, play and grow.

The public is invited to the Todd Becker Foundation presentation at the St. Francis High School gym

at 7 p.m. on Wednesday, Jan. 20

The program is geared toward students and parents making good and bad decisions. An afternoon program designed for high school students will be held in the gym starting at 1 p.m.
