Applications matching funds, including cash and in-kind contributions provided must be received before the close of business on May 16.

with Good Samaritan Village residents on Thursday, March 27.

"Conservation Grants is an excellent investment in new conservation technologies and approaches that farmers, ranchers, and forest landowners can use to achieve their production and conservation goals," said Eric Banks, conservation service state conservationist.

State and local governments, federally recognized Indian tribes, non-governmental and educational organizations, private businesses, and individuals are eligible to apply. Priority will be given to applications that relate to nutrient management, energy conservation, soil health, air quality, climate change, wildlife, economics, sociology, environmental markets, food safety, historically underserved groups, or assessments of past projects. In the 10 years that the conser-

vation service has administered the program, grants have helped develop water quality trading The Grief Support Group will markets; assisted in innovative ways to increase fertilizer, water, and fourth Mondays at 2 p.m. and energy efficiencies; as well Meeting place is the Immanuel as addressing other resource con-

The grant program enables the service to work with public and private partners to accelerate technology development and adopt promising approaches to address natural resource concerns. Funded through the Environmental Quality Incentives Program, the
