Club Invention will help children learn

Parents seeking to provide opportunities for their children to use Science, Technology, Engineering, and Math (STEM) will appreciate what Club Invention has to offer. This year's model allows children to make a prototype of an alternative energy power source, make chasm crossers, and use a camera-bot while trying to rescue two characters, Echo and Axon.

Club Invention has been offered at the St. Francis Grade School for three years. Kids that participated enjoyed creating new things every day. Club Invention is nothing like school. Kids work in groups

to design things, play games, and learn.

This year's club is offered at two times from July 21-25. The times are 10:00-11:30 a.m. and 1:00-2:30 p.m. and the cost is \$59. Instructor Kim Queen is hoping that at least one of those times will be filled with the minimum of 12 students. Students entering grades 3-6 are eligible. Enrollment forms were sent home with students in Cheylin and St. Francis. However, if you still need a form, please stop by the St. Francis City Office. For more information go to <http://invent.org/camp-invention/> or call Kim at 785-772-7350.
