Swimmers do well at Oakley

"This week was the hardest to pick Swimmers of the Week because they almost all were," Coach Margaret Poling said. "I tried to pick heat winners in two or more events. Corbin Sherlock and Gavin Smull winning first in every event they swam in made that impossible for any others to do as well. They were outstanding."

"Other outstanding swimmers were Katie McDanel, who improved her time in the freestyle from 50.59 to 40.00; Jacy Hilt, who improved her time in the backstroke from 54.47 to 37.06; Taylor Spike, who improved her time in the butterfly from 59.04 to 48.75; Christina Hilt, who improved her time in the backstroke from 31.03 to 21.86 and Spike, who also improved her time in the breaststroke from 104.94 to 56.47."

"This week we are pinpointing small movements and more intricate details of each stroke as we get in shape for the two day meet on July 11 and 12."

The team will travel to Burlington, Colo., this week.

"See you there," Coach Poling said.

Bikers ride through St. Francis

The "Bike and Build" Habitat for Humanity group rode through St. Francis on Wednesday and all bikers were welcomed into Dr. Ryan Unger's office for a treatment and to be checked over.

"We just want to keep them healthy," he said.

There were 20 bikers ranging in age from 18 to 24, and each had to raise \$3,750 to go on the trip. All the funds raised will go to Virginia Tech University's student chapter of Habitat for Humanity. The group is hoping to raise enough for a student house for one student.

The bikers figured that St. Francis was about the half-way mark and they will arrive in Portland, Ore., on July 19. Along the way, they stopped several places to help with Habitat homes.

For more information, bring up the web page at www.bikeandbuild.org.

DR. RYAN UNGER, St. Francis, treated Carol Sevin, Winston Salem, N.C. She was one of 20 of those participating in the "Bike and Build" Habitat for Humanity riders who were on their way to Portland, Ore.
