# Let the **Gorilla** help sell your stuff

## If you're planning a garage sale, be sure it's in **The Country Advocate**

Invite the 900-pound Gorilla to help with your garage sale. You'll have more customers, sell more stuff and make more money. That means more in your pockets at the end of the day, and less junk to haul off to the dump.

How does it work? Simple. While the paper reaches most families in the town, The Country Advocate goes all over northwest Kansas. It reaches 41,860 readers in 11 Kansas counties, plus parts of northeastern Colorado and southwest Nebraska.

That's why it's the 900-pound Gorilla of Northwest Kansas Advertising, reaching more homes and more people than any other publication, broadcast station, cable system, Internet page or advertising medium.

Reader after reader has tried The Advocate for their advertising. The results?

Stuff sells. People drive for miles to find a good sale. They don't want to walk away empty-handed. The Gorilla works.

Your newspaper makes it easy for you to be in The Advocate. Just call or stop by and place your ad. You'll be surprised how easy it is, and how affordable. You'll be surprised — and happy — when your phone starts to ring or people show up at your door.

But call today. Deadline for The Advocate is noon Friday, ONE WEEK BEFORE a weekend sale. Sure, you can get an ad in the paper later, but it won't be the same. Call the Gorilla.

**INTERNAL PET PARASITES: WHAT YOU NEED TO KNOW IN SHORT!**

\*Roundworms - Both dogs & cats - (Ingestion of soil, feces and environment.) These can infect humans. \*Hookworms - Both dogs & cats - (3 common ways to get) 1. Migrate through the skin. 2. Ingestion of soil, feces, etc. 3. A mother's infected uterus or milk. These can infect humans. \*Whips - Both dogs and cats - (Ingestion of Soil, feces.) These are not passed to humans. \*Tapeworms - Both dogs & cats - (Ingestion of fleas & mice, lice or other animals.) This parasite needs an intermediate host and uses the mouse or flea (examples) as an incubator before it infects the host (your pet). Tapeworm in humans is a different species. \*HEARTWORM - Both dogs & cats - These must carry by a vector (mosquitos), and unlike the above parasites, after several months of developing, the microfilaria travel through the bloodstream to the heart. \*Coccidia - both dogs & cats - (Ingestion of soil & feces) More likely in young animals. \*Giardia - Both dogs & cats - (Ingestion, inhaling and sniffing of the infected cyst stage through contaminated ground or water) This is not a worm, it is a simple one-celled parasite species. **HORSES can also suffer from Internal Parasites such as Roundworm & Bots!**

**REVIVING THE MIDWAY THEATRE**  
Cruising Main back in the day  
Popcorn at the old Midway  
Hanging out in Burlington  
After all the chores were done  
Everyone out having fun  
That was before the doors were closed  
And everybody had supposed  
That times had changed...reality  
Had caught up with the town you see

Many folks just could not bear  
To see the Midway empty there  
Main Street seemed so gloomy too  
There must be something they could do?  
And so they rallied friends around  
Revitalizing their hometown  
Calling for the days of lore  
To fill the Midway like before  
Now fundraisers are everywhere,  
Bowling for the theatre,  
Monthly scheduled cruise-a-thons  
Playing all our favorite songs  
It's crazy but I swear it's true  
T'was even on the evening news  
Might have you missed what has begun?

 **The Sherman County Conservation District will conduct a sign-up June 15-June 26 for both Non Point and State Water Resources Cost Share Program**

Some of the State Water Resources Cost Share Program practices eligible for cost share include Contour Buffer Strips, Critical Area Planting, Diversions, Fencing, Grassed Waterways, Pipelines, Terraces, Livestock Wells and Tanks. Most (but not all) practices in the State Cost Share program are cost shared at 70% of average cost. The landowner limit is \$6,000. The Non-Point source funds can be used for FAILING on site waste water systems and plugging abandoned wells. LEPA will have to evaluate and rank the applications and there will be upfront fees for these services. The cost share rates are limited to 50% not exceed \$2,500 on septic systems and 50% not to exceed \$500 on abandoned wells.

For further information call Sandy Rodgers at the Conservation District Office at 785-899-3070 ext. 1335. 210 W. 10th St. • Goodland, Kan. 67735

**Citizens question county decision**

By Kevin Bottrell  
kbottrell@nwkansas.com

A group of 30 to 40 people crowded into the Sherman County Commission room at the courthouse on Friday, most to protest the commissioners' decision to stop funding Economic Development.

At the May 19 meeting, the commissioners had expressed their disappointment in the performance of Director Suzanne McClure and voted unanimously to stop putting forward their contribution of \$50,000 when the contract with the city ends in January.

After hearing from the assembled members of the public, Commissioner Larry Byrle proposed approaching the city and laying out a simple bullet point list of things the county wants reported to them. He said if the two entities can work better together over the next six months, the county could consider rescinding the vote. The other commissioners agreed. Byrle said he would begin working on a list and would bring it to the other commissioners to get their input.

Gennifer House and Kevin Rasmussen led the discussion, with many of the audience electing to speak. House said the group had assembled because of concern over the commissioner's vote and to ask them to reconsider.

Commissioner Steve Evert said the county wanted accountability, and has asked for meetings about it many times. Commissioner Ken Klemm said the county's concerns were never addressed.

"We're pushed out of the loop," Byrle said. "We want an explanation as to where that money goes."

Klemm said the city wanted an answer on whether to continue the agreement by June 1, and the commission left it as long as it could.

House said there has to be an amount of secrecy in economic development, since businesses are reluctant to reveal details before decisions are made, and because of competition with surrounding communities.

Klemm said there were others in the community that agree with the county's decision, but might be afraid to speak up.

"I'm here giving my opinion," Rasmussen said. "We want you to understand what we think."

Klemm said that while the county elected to no longer support the joint arrangement with the city, "I would find another way to do economic development efforts."

Larry Keimig, former president of Northwest Kansas Technical College, told the commissioners how in 1967, local banks provided money to create the Industrial Park, and how difficult it has been to get

industry to set up shop there.

"It is very difficult for Economic Development directors," he said. "But working together makes a difference. I find it deplorable that you have chosen not to fund Economic Development."

Second Superintendent Bill Hieneman said he appreciated the county wanting accountability, but that \$50,000 is a small amount compared to the county's overall budget.

Members of the audience also spoke to the commissioners about their views of McClure's performance, the commissioner's assertion at the May 19 meeting that no grants had been obtained and the relationship between the city and county.

**Director's Performance**

Klemm said the commissioner's decision was not about McClure. Many in the crowd objected to his statement, citing comments made at

the previous meeting. One speaker said the commissioners had chosen McClure under the bus instead of trying to work out the problems.

Evert said they had not seen her at meetings to report on what she is doing. The commissioners each said they had heard more about economic development efforts on the street than from McClure herself. Evert, however, reiterated that the decision was to not pay the \$50,000 in funding to the city for Economic Development, and that did not mean firing the director, who is a city employee.

"The city has told us for years that they'll keep going without us," Klemm said. "We've told the city we want to be a part of it, but we want transparency and accountability."

House said economic development does not happen overnight.
