**Senior Ponderings** This is the last in a series of helpful hints on safety taken from The WorkCare Group, Inc. and Health Ink & Vitality Communications. Automobile Safety. • Always wear your seatbelt with its shoulder harness. If you are driving a vehicle with an air bag, sit 12 inches or more away from it. • Have annual eye examinations. Allow time to become accustomed to new lenses before driving. • Wear good quality sunglasses during the day to reduce glare. • Drive only in daylight hours if you have difficulty seeing at night. • Keep a window open slightly so you can hear sirens, horns

or other warnings. • Take frequent breaks to rest your eyes, stretch your muscles, and renew your energy on long trips. • Be sure that any medications you are taking will not impair your driving ability. • Consider taking a safe driver training course. Many states, as well as the American Automobile Association offer them. • Don't drink and drive.
