Legal Notice

LEGAL NOTICE
Pursuant to L. 1991, ch 279, 2.

Results of the Market Study Analysis for Thomas County for Assessment Year 2002.

A study of the residential real estate market indicates there is an upward trend in some areas, and stable market in other areas, based on price range of houses on the market. A study of residential and commercial vacant land indicates there is an upward trend. A study of the commercial real estate market indicated there is an upward trend downtown and an upward trend at the interstate area and industrial area.

Values on specific properties may change because of changes in the property, correction of descriptive information of calibration of values based on sales of similar properties in the area.

In accordance with the provisions in KSA 79-1476, the Division of Property Valuation is required to annually furnish each county the results of its study relating to changes, if any, of the Use Value of agricultural land. Changes that can and do occur as a result of several factors include cropping practices, commodity prices and production costs.

The Study relating to Use Value of agricultural land completed by the Division of Property Valuation indicated the following changes compared to the prior year:

All Grassland: Increased in value on certain soil types from the study relating to use value of agricultural land completed by the Division of Property Valuation.

Dry Cropland: Increase or decrease in value depending on certain soil types from the study relating to use value of agricultural land completed by the Division of Property Valuation.

Irrigated Cropland:

Flood: Values will increase or decrease depending on the well depths and soil types. These values are from the study relating to use value of agricultural land completed by the Division of Property Valuation.

Sprinkler: Values will increase or decrease depending on the well depths and soil types. These values are from the study relating to use value of agricultural land completed by the Division of Property Valuation.

Beginning March 29, 2002, the Thomas County Appraiser's Office will begin notifying property owners of their property's current appraised value. Property owners of record will be receiving a Change of Value Notice in their mail.

THE CHANGE OF VALUE NOTICE IS NOT A TAX BILL. It serves only as the property owner's official notification of the county appraiser's estimate of value for their property.

Each Change of Value Notice will include the current appraised and assessed values of the land and improvements of each class of property on the parcel, a brief explanation of the notice, who to contact about questions, and a condensed outline of the appeal procedures that property owners must follow if they disagree with the values.

If property owners have questions or wish to appeal the classification or appraised value of their property, they must call the taxpayer service number listed on the Change of Value Notice within 30 days of the mailing of the notice.

Property owners must attend an informal meeting with the county appraiser as a prerequisite to formally appealing the change in their property's value.

In the Spring of 2002, farm properties and small towns will be physically reinspected by the appraiser's office to meet the requirement that one-sixth of the properties in the county be reinspected each year.

If anyone has questions relating to the Change of Value Notice, please call 462-4525 or visit the Thomas County Appraiser's Office between the hours of 8 AM-5 PM.
