

Area juniors and seniors attend planning conference

Colby Community College hosted their annual College Planning Conference on Thursday from 9 - 10:30 a.m. in the Student Union.

Approximately 250 high school juniors and seniors from Atwood, Brewster, Colby Greeley County, Herndon, Golden Plains, Goodland, Hoxie, Tri-Plains, Oakley, Grinnell, Wheatland, Quinter, St. Francis, Wallace County and Weskan were in attendance.

In addition to Colby Community College, other post-secondary schools

represented at the conference included: Baker University, Bethany College, Emporia State University, Friends University, Kansas Wesleyan University, McPherson College, Ottawa University, Pittsburg State University, Sterling College, KU, Wichita State University, Benedictine College, Creighton University, Kansas State University in Manhattan Christian College, Northwestern Oklahoma State, Panhandle State University, Southwestern College, Tabor College and Washburn.

Student News

Learning some respect

COURTESY PHOTO/Colby Free Press

Colby Grade School fifth grade students participated in a lesson on respect with Mrs. Unger, Colby Grade School counselor. Staff members highlight a different character trait each month through the Citizenship Program in the grade school.

Sacred Heart earns accreditation

Kansas State Board of Education chairman, I.B. "Sonny" Rundell announced that Sacred Heart School of Colby has earned accreditation under the state board's continuous improvement system.

Sacred Heart successfully completed this cycle of Quality Performance Accreditation. The state board took action at its July meeting in Topeka to officially grant Sacred Heart a five-year accreditation status.

Earning accreditation by the state

board of education includes a site visit to the school by state and local education officials to review progress in the area targeted for improvement in each school's locally-developed improvement plan.

Sacred Heart implemented a variety of school improvement strategies which enabled the school to earn accreditation status.

State education officials highlighted a number of the school's strengths including reading and problem solving.

What measles, mumps and rubella

can teach us about

keeping kids in school,

off drugs and out of trouble.

Not that long ago, healthy kids were easy prey for all kinds of diseases. But then we got smart. We started immunizing. And now, we keep kids healthy. Today, our kids face a series of life choices every bit as serious as any disease. And once again, we need to join together to immunize them from the things that threaten their health. The wonder drug that can help kids make smart choices doesn't come from a vial or doctor's bag. It comes from each of us. It comes from connecting with the children in our community to give them the sense of

belonging that keeps them centered through tough decisions and tough times. Protecting the health of Kansas kids will take every one of us, reaching out to every child. If we immunize 10% of the children, we protect only those kids. But if we immunize 85% or more, we protect our whole community. That's why we need you. To smile. Wave. Talk. To care. To do the simple things to connect with children in your family, your neighborhood, your church. To give Kansas kids the immunization they need to protect the future for all of us.

Take a second. Make a difference.
