They came by car. Bus. Van. Foot. In large numbers.

They were an impressive crowd. They saw an impressive concert.

In excess of 1,000 people — some placed the number at 1,200 — filed into the Colby Community Building on Tuesday night to hear the United State Air Force Band and Singing Sergeants of Washington, D.C. The group is on their fall tour of 23 cities and expected to wind up their trip around Oct. 25.

From The National Anthem to God Bless America to a patriotic salute to those in uniform today and those who served in the past, it was an evening most will not forget.

The first hour of the program was devoted primarily to music of a heavier bent - classics, semiclassics and numbers showcasing the talents of individuals in the concert band. Applause was heavy and approving.

The second hour was a different story, featuring the hits of the '70s, punctuated by a light-hearted appearance of a character out of that era, and a number of vocalists that brought the crowd to its feet.

TOPEKA (AP) — The bronze easily. Kansa Indian whose arrow was supposed to aim at the north star wasn't even standing, much less at his assigned spot atop the state Capitol.

A bedeviling bolt problem kept the "Ad Astra" statue earthbound Tuesday. Both state officials and construction workers expected it to remain so until Thursday afternoon.

By Tuesday night, the statue, weighing 4,100 pounds and more than 20 feet nect a 2-inch thick plate at the base of tall, sat on its side in a flatbed truck on the north side of the Capitol, so that work on the difficulties could go more

## SRS making plans to close a total of 70 county offices

ment of Social and Rehabilitation Services plans to close its offices in 23 counties next year as part of a series of budget cutting proposals.

SRS also is suggesting reductions in spending on child care services, changes in medical insurance coverage for the children of working families and cuts in services for the disabled and mentally ill. The proposed reductions totaled nearly \$41 million annually.

SRS officials discussed their proposals during meetings Tuesday with other state officials and social service advocates. The agency submitted its recommendations to Gov. Bill Graves last month.

Most of the proposed cuts would take effect in the state's 2004 fiscal year, which begins July 1, 2003. However, county SRS offices could begin closing as early as January, said SRS Secretary Janet Schalansky.

Graves and his staff are working on

TOPEKA (AP) — The Depart- any spending plan is likely to be modified by the new governor taking office in January. Graves' successor could accept the SRS proposals, modify them or ignore them.

But Schalansky and State Budget Director Duane Goossen said some cuts are likely — and larger ones are possible — given the state's financial problems. Last week, a legislative report projected a \$103 million deficit on June 30, going into fiscal 2004.

In August, Graves imposed \$41 million in cuts in the \$4.4 billion state budget, including \$6 million for SRS, dropping its total to \$680 million.

The agency also announced plans to close 70 of its 105 county offices over three years. On Tuesday, SRS officials identified the first group. They are in Chase, Clay, Clark, Coffey, Comanche, Ellsworth, Grant, Gray, Greeley, Jewell, Kearny, Kingman, Lane, Lincoln, Mitchell, Nemaha, Ness, Ottawa, Republic, Stanton, Wabaunsee, a proposed fiscal 2004 budget, but Washington and Woodson counties.

# **Tuition** program continues

**By MICHELLE L. HAWKINS** 

Colby Free Press The Colby Community College Board of Trustees gave the go-ahead to continue offering the Thomas County Tuition Grant at their Monday meet-

As the recruitment is already beginning for next year, Skip Sharp, Dean of Students, requested the decision be made at this meeting as to whether or not the grant would be offered again for the 2003-2004 school year.

"I need to be able to tell students for next year if the grant will be available," said Sharp.

Currently, a student who graduates from a Thomas County high school or has been a continuous three-year resident of Thomas County, and who enrolls for at least six credit hours, is eligible to receive the tuition grant. Previous to the 2000-2001 school year. only those in the top 25 percent of their graduating class from a Thomas County high school were eligible.

Trustee Curt Stephens said of the program, "I haven't heard anything but good comments about it (the tuition grant program)."

Currently 20 percent of the students on campus come from Thomas County. The trustees voted unanimously to keep the grant for another

In other business:

• The board approved a motion to allow the sale of obsolete items from the college. Dr. Mikel Ary, college president, told the trustees that he felt several items on the list could be possibly used elsewhere on campus. He said if they could, he would be removing them from the list before it was published.

• The trustees approved the purchase of periodicals for the campus. The college is able to purchase a "package" which includes publications in a variety of areas that are used in each department and in the library.

• Contracts were approved for several college employees, and four contracts were ratified.

• Agreements for affiliation were approved for students in the Physical Therapy Department who will be doing apprenticeships.

 Approval was given to purchase two steam jacketed kettles for the cafeteria, in the amount of \$5,951.

 Ary presented the trustees with a request from Peg Stupka for early retirement, due to medical issues. Regulations require the request to be made 60 days prior to the planned retirement, but can be waived due to health concerns. The trustees requested a medical request from a doctor and will table the decision until the next meeting.

• The new Emergency Response Plan for the college was shown to the
