Time to think about Fourth of July safety

It is extremely important to know the difference between a legal consumer firework and a dangerous explosive device. Items such as M-80s, M-100s and blockbusters are not fireworks, they are federally banned explosives. They can cause serious injury or even death. Stay away from anything that isn't clearly labeled with the name of the item, the manufacturer's name and instructions for proper use. Here are some more tips to help ensure a safe Fourth of July.

Fireworks are not toys. Fireworks complying with strict regulations enacted by the U.S. Consumer Product Safety Commission in 1976 function primarily by burning to produce motion and visible or audible effects.

They are burning at approximately the same temperature as a household match and can cause burn injuries and ignite clothing if used improperly.

Never give fireworks to young children. Close, adult supervision of all fireworks activities is mandatory. Even sparklers can be unsafe if used improperly.

Select and use only legal fireworks. If you choose to celebrate the Fourth of July with fireworks, check with your local police department to determine what fireworks can be legally discharged in your area.

Stay away from illegal explosives. Illegal explosive devices con-

tinue to cause serious injuries around the Fourth of July holiday. These devices are commonly known as M-80s, M-100s, blockbusters or quarter-pounders.

Federally banned since 1966, these items will not contain the manufacturer's name and are usually totally unlabeled. Don't purchase or use unlabeled fireworks. If you are aware of anyone selling such devices, contact your local police department.

Homemade fireworks are deadly. Never attempt to make your own devices and do not purchase or use any kits that are advertised for making fireworks. Mixing and loading chemical powders is very dangerous and can kill or seriously injure you. Leave the making of fireworks to the experts.

Retreat planned in August

Rachel's Vineyard Ministry announces their next retreat to take place Aug. 5-7. The location of the retreat is kept private to protect the confidentiality of the retreatants.

The weekend retreat is designed for anyone affected by abortion.

"This retreat is not only for women who have had abortions, but for men, grandparents, aunts, uncles, siblings, married couples, anyone affected by the loss of abortion," said Donetta Robben, retreat director.

Rachel's Vineyard allows individuals to confront and mourn their loss.

Oftentimes, women (and men too) who have participated in abortion have what psychologists call "complicated grief."

They have a sense of disbelief accompanied by anger and bitterness over the death. They will often experience great emotional pain and a prominent longing for the person that died.
