Sounds like everyone that had surgeries and illnesses are all doing well. We pray that they will all be going full speed real soon.

The volleyball girls lost at state, but a big congratulation goes out to you all for a great season.

The football boys are playing Victoria tonight (Tuesday) in the first round. Good luck, boys.

God, the Spirit of life, will always meet you where you are. Never pushing, never forcing, but always reflecting back to you the level of your own understanding. If you believe in a harsh, punishing God, that is who you will meet in your time of need.

If you believe in a loving, compassionate God, He will be your guide. If you believe in a partial,

unjust God, you will experience the outgrowth of that belief if and when you turn to God for support. When you believe in a powerless or limited God, who only hears when He wants to hear, you will have experiences which will confirm exactly what you believe. Your beliefs and perceptions don't change the true nature of God, but do determine the experience you will have when you seek God. One of the most important principles to remember in life is, you always get exactly what you expect!

Don't forget to get out and vote Tuesday. Your vote does count.

## KU offers new \$5,000 scholarship

LAWRENCE — Students graduating from high school in Thomas County may benefit from new \$5,000 University of Kansas scholarships. The scholarships are available to encourage students with financial hardships and other challenges to attend KU.

A \$5 million gift commitment to KU Endowment from the Ernst F. Lied Foundation created the scholarship program, known as the Christina M. Hixson Opportunity Awards. Christina Hixson is the trustee of the Lied Foundation of Las Vegas, Nev.

Candidates for the awards must be graduates of Kansas high schools who, due to life challenges or lack of resources, might not consider pursuing a college education. Recipients must demonstrate financial need and qualify academically for admittance to KU.

The program will offer the first 10 awards to freshmen admitted for the

2007-2008 academic year. It will continue to add 10 more scholarships per year until the program supports renewable scholarships for 40 students.

Hixson grew up in the small town of Clarinda, Iowa, and did not have the chance to attend a four-year university. Her goal is to reach out to students who, like her, lack opportunities for a college education.

"I'm interested in giving students a chance," she said. "This scholarship will support a lot of first generation college students, and students who didn't think that they could afford KU. That's my hope, to make a difference to them."

KU Chancellor Robert Hemenway said the new program would be an important addition to the more than \$20 million in privately funded scholarship aid given to about 5,000 KU students each year.

"The Hixson Opportunity

Awards will make available educational opportunities for students who might not otherwise believe it possible to pursue a college education," Hemenway said.

The Christina M. Hixson Opportunity Award Fund will be managed by KU Endowment, the official fundraising and fund-management organization for the University of Kansas. Founded in 1891, KU Endowment is the first foundation of its kind at a U.S. public university.
