10 Things YOU Can Do

- 1 Turn a plastic milk jug upside down, cut bottom off and use as a funnel. Use the bottom of the jug as a saucer to put under plant pots.
- 2 At the store, ask yourself these questions: can this product or its packaging be reused or recycled? Was it produced from recycled materials? Whenever possible, choose products that meet these criteria.
- 3 Take a bag, basket or box with you when you shop.
- 4 Maintain and repair clothes, toys, tools and appliances rather than replacing them with new ones. Donate your old clothing, giving it new life for people who need it.
- 5 Save and reuse household items, such as string, plastic and glass containers, gift-wrap, seasonal decorations and shopping bags.
- 6 Use recycled or refurbished items such as printer cartridges.
- 7 Share newspapers and magazines with others.
- 8 Dispose of potentially hazardous materials such as motor oil, batteries and tires at appropriate locations.
- 9 Build a compost pile in your yard to convert biodegradable materials including grass and leaves into useful soil amendments.
- 10 Collect your aluminum and steel cans, then drop them off at their appropriate recycling center in your area.
