This is a logic-based number placement puzzle. The goal is to enter a number, 1-9, in each cell in which each row, column and 3x3 region must contain only one instance of each numeral. The solution to today's Sudoku puzzle is below.

Smoking ban probable

TOPEKA (AP)- The state's top two legislators said Thursday that it's not a question of whether the Legislature will enact a statewide smoking ban, but when.

Efforts to ban smoking statewide fell short this year, even after it was rewritten in the Senate Judiciary Committee to add numerous exemptions, including bars and casinos. It also mandated a Nov. 4 vote in each county on whether residents wanted to be part of the ban.

Reworking the bill didn't help its chances. Critics didn't recon-

sider their opposition, and supporters said the reworked version would make Kansas the laughing-stock of the nation. Supporters vow to push next year for the ban.

"We are moving forward with it," said Frances Breyne, Kansas Health Policy Authority spokeswoman.
