

A day at the college

DEBBIE SCHWANKE/Colby Community College
Monica Kane, director of student support services, took photos of high school students who attended Senior Day 2008 at Colby Community College on Nov. 14. Seventy-six students and 25 parents got a tour of the campus, met coaches and activity sponsors and had lunch in the union. Parents went to a discussion on admissions and financial aid information.

Decorate safely this year

Holiday decorations, especially candles and electrical lighting, can be fire hazards, and Safe Kids Kansas reminds parents and caregivers to take a few precautions when decorating for Christmas, Hanukkah, Kwanza and other winter festivities.

“Never, never leave burning candles unattended,” says Jan Stegelman, Safe Kids Kansas coordinator.

“Don’t put candles on a tree or a natural wreath, or near curtains or drapes. Keep matches and lighters locked out of reach.”

In 2005, candles started 15,000 home fires in the United States, and the top four days for candle fires are around Christmas and New Year’s according to the National Fire Protection Association. Battery-operated flameless candles are an alternative that greatly reduces the risk of fire, compared to traditional candles.

“Decorative lighting should be labeled with the seal of an independent testing lab,” says Stegelman. “If it’s not labeled for outdoor use, don’t use it outdoors.”

If you decorate a tree, Safe Kids Kansas recommends these precautions:

- Never leave a lit Christmas tree or other decorative lighting display unattended. Inspect lights for exposed or frayed wires, loose connections and broken sockets. Do not overload extension cords or outlets and do not run an electrical cord under a rug.
- Natural Christmas trees always involve some risk of fire. To minimize the risk, get a fresh tree and keep it watered at all times. Do not put the tree within three feet of a fireplace, space heater, radiator or heat vent. LED lights burn cooler than incandescent lights and pose a lower risk of fire.
- Decorate with children in mind. Do not put ornaments that have small parts or metal hooks, or look like food or candy, on the lower branches where small children can reach them. Trim protruding branches at or below a child’s eye level, and keep lights

out of reach.

- Do not burn Christmas tree branches, treated wood or wrapping paper in a home fireplace.

Safe Kids Kansas also offers these tips to prevent accidental poisoning:

- Keep alcohol (including baking extracts) out of reach and do not leave alcoholic drinks unattended. Don’t forget to store all medications, including those for children, out of reach.
- Color additives used in fire-place fires are a toxic product and should be stored out of reach. Artificial snow sprays are also harmful if inhaled.
- Holly berries, mistletoe berries, poinsettias, amaryllis, boxwood, Christmas rose, Crown of Thorns, English ivy and Jerusalem cherry are all potentially harmful if eaten.

If a child eats any part of a non-food plant, call the Poison Control Center at 800-222-1222.
