

Usual, unusual combine at the fair

One of the more unusual sights at this year's Thomas County Free Fair was this Black Hawk helicopter (above), which flew in just for the Oak Ridge Boys concert the weekend prior to the fair. A more usual, but no less important, sight was the 4-H and open class displays (above right). These displays included vegetables, clothing and art, which were all judged and awarded. The livestock shows are always a main attraction to the fair (right). These horses and riders awaited judging during the 4-H horse show.

Area 4-Hers awarded for educational displays
