## Corrections

A recap of the Colby High School football season on Page 8 of the Thursday, Oct. 20, *Colby Free Press* incorrectly said Concordia, Clay Center and Russell high schools would be a part of the new Great Western Athletic Conference. The conference will include Scott City, Hugoton, Ulysses, Holcomb, Goodland and Colby. This was due to a reporter error.

# THE BIGGEST BREAKTHROUGH IN CROP NUTRITION, PERIOD

MicroEssentials granules, containing N, P, S and Zn (SZ), eliminate component segregation to ensure uniform distribution of nutrients.

MicroEssentials® fertilizer is proven to help you increase nutrient uptake and maximize efficiency, from germination to harvest. A patented manufacturing process packs essential nutrients into uniform granules that provide consistent nutrition, all season long.

Each MicroEssentials granule is nutritionally balanced. So nutrients are distributed uniformly, and your crops get what they need to achieve their full yield potential. And only MicroEssentials provides two forms of sulfur: sulfate for immediate uptake, and longer-lasting elemental sulfur. Research shows this balanced crop nutrition helps plants get off to a faster start and stay healthier.

This season, break through to a better harvest with MicroEssentials. For more information, see your local ag retailer, or visit [MicroEssentials.com](http://MicroEssentials.com).

Performance. Profitability. Peace of mind.
