**Corrections**

The article, "College raises money for new fitness center," on the front page of the Jan. 22 edition of the *Colby Free Press*, incorrectly said the cost of a proposed new fitness center will be \$350,000. It will cost \$700,000, said Public Information Director Debbie Schwanke, and the college needs to raise an additional \$500,000. This error was due to incorrect information supplied to the newspaper.

**Weekly Horoscope**

**Aries (March 21 - April 20)** Clearer boundaries are developing between the areas of your life. Intensity on the professional front is easing as you gain momentum. Spend more time with friends or networking. Life is less stressful and more dynamic.  
**Taurus (April 21 - May 21)** There is pressure, not that there is anything wrong with what's happening on professional and home fronts. It's more the reverse, with too much of a good thing, both wanting your attention at the same time. A breakthrough on the home front, is likely by the weekend.  
**Gemini (May 22 - June 21)** Find the right balance between control and freedom. Explore your options. Excuses are likely to be challenged and if you are in a rut, whether personal, professional, romantic or creative, there is pressure. Where you're saying "no" life is going to be saying "yes."  
**Cancer (June 22 - July 22)** The dominant forces in your chart are being played out on the financial front. A lot of this is likely to be coming from the fact that you now want more out of life and that means having the money.  
**Leo (July 23 - Aug. 22)** Things are falling into place on the work and relationship fronts. As often happens, just when you have things on the right track, life

throws a spanner in the works. Stresses are compounded. Don't hide from this, for the more pressure the bigger the breakthrough.  
**Virgo (Aug. 23 - Sept. 23)** As things become more balanced on the work, relationship and personal fronts you should be able to sit back and enjoy. Yet a silent enemy is threatening to erode that. Whether because the week is busy or because of self doubts, this is temporary and strengthens your resolve.  
**Libra (Sept. 24 - Oct. 23)** There is tension in the air. It's unlikely to have any direct effect on you; you're affected by the stress of people around you. Take an altruistic approach, going out of your way to make life easier for those around you.  
**Scorpio (Oct. 24 - Nov. 22)** There is a lot of activity on the professional front this week. Yet home and family are demanding your attention. This creates some pressure and needs time management skills.

**Sagittarius (Nov. 23 - Dec. 21)** There is a lot of activity on the professional front this week. Yet home and family are demanding your attention. This creates some pressure and needs time management skills.  
**Capricorn (Dec. 22 - Jan. 20)** There is financial pressure and tension this week, but a breakthrough is likely. A boost in confidence and return of your fighting spirit leads to a breakthrough.  
**Aquarius (Jan. 21 - Feb. 19)** Polarizing factions could create pressure, but provide an opportunity for a breakthrough. You finally have a chance to get personal issues out in the open and dealt with so you can move on.  
**Pisces (Feb. 20 - March 20)** Pressure is unlikely to dampen your spirits. Things are just starting to move on the work front. Any pressure is likely to come from internal doubts, which need to be acknowledged and respected, but not allowed to hold you back.
