# Network while you can

### • Weekly Horoscope

**Aries (March 21 – April 20)**  
 Today and Thursday are important days for social, personal and professional networking, meetings or connections. From Friday on, your heart calls for much quieter times.  
**Taurus (April 21 – May 21)**  
 The focus this week is on your professional situation. Reality needs to take a back seat, while fantasy and desire fill you with a sense of what can be.  
**Gemini (May 22 – June 21)**  
 While your financial situation is the face of the past and your professional situation the face of the future, the strongest forces in your chart encourage you to keep your options open. In any situation, refuse to have tunnel vision.  
**Cancer (June 22 – July 22)**  
 There is a lot of focus on your financial situation this week. It begins with a need to be a bit of a dreamer and ends with a very smart and realistic take on things, ready to put your stake in the ground. At the same time, the first few days of the week are priority days for keeping communications open and doing what you can to put things on the right track. Break out of a rut and start living.  
**Leo (July 23 – Aug. 22)**  
 Your attention is split among work, relationship and financial fronts, with personal pressure thrown in. Just take things one step at a time.

**Virgo (Aug. 23 – Sept. 23)**  
 It's easier to find the balance between work and play if you realize it's a choice. If you're waiting for demands to drop so you can have fun it probably won't happen. With ongoing work, romantic and relationship opportunities, you can't afford to miss out on anything.  
**Libra (Sept. 24 – Oct. 23)**  
 The past, present and future come together this week, in a way that sees a passing of the torch. By Wednesday you need to have either made needed choices or feel confident things are on track. It's then that Mercury turns his attention to your romantic sector, where there is a lot of activity.  
**Scorpio (Oct. 24 – Nov. 22)**  
 Just when things should be falling into place, there is trouble on the horizon. Don't be alarmed, this is the kind of trouble you want, offering a chance to resolve things, once and for all. By Sunday, a final compromise can be reached.  
**Sagittarius (Nov. 23 – Dec. 21)**  
 There's an opportunity to give

your creative desires and fantasies a voice, giving you something to aim for and a chance to put the past behind you. Financially, tie up loose ends and aim to make the right decisions. Underlying everything, something good is coming and it's just over the horizon.  
**Capricorn (Dec. 22 – Jan. 20)**  
 While the focus is on income, this brings confidence into every aspect of your life. Belief in yourself makes it easier to stand your ground in all situations. There is a chance for healing to take place, while you express yourself.  
**Aquarius (Jan. 21 – Feb. 19)**  
 This is probably the most important week of your birthday month, with much coming from things established this week. Heal the past and put it behind you. You'll have the resources needed to commit to a future that is real and authentic.  
**Pisces (Feb. 20 – March 20)**  
 The future isn't the mystery that it usually is. That's because Jupiter, planet of luck, is already in your sign. When Venus returns to your sign on Friday, you'll have the planets of desire and luck both on your side. The tide has turned, with life's wheel of fortune now turning your way.
