**Pressure shows turnaround coming**

**Aries (March 21 - April 20)**  
 The more bogged down by pressure life seems, the closer you are to a major turnaround. Your energy levels are likely to be low. Practice extreme self care. Be patient, knowing life's wheel of fortune is about to swing your way.

**Taurus (April 21 - May 21)**  
 With the wind at your back, focus on expectations. Develop a game plan and a strategy to master your destiny. Keep that plan fairly open and fluid.

**Gemini (May 22 - June 21)**  
 Venus is cementing your personal and romantic expectations. This is about compiling your list of wants for the coming year. Finalizing a game plan or making firm decisions will come later.

**Cancer (June 22 - July 22)**  
 While this is a time of year when you spend time in your cave, your heart has other plans. While you still need time to think and review, you also want to get on with life.

**Leo (July 23 - Aug. 22)**  
 There is pressure between income and financial sectors. Life isn't all work and no play. In an important financial and professional week, you're not meant to be going it alone.

**Virgo (Aug. 23 - Sept. 23)**  
 Your survival instinct is fighting pressure, with an opportunity for a breakthrough and a chance for a final resolution. You're ready to

**Weekly Horoscope**

move on at the same time that life is encouraging you to move on.

**Libra (Sept. 24 - Oct. 23)**  
 Work pressure turns into opportunity. This puts the focus on your professional situation, but that's the way it needs to be. Avoid burning the candle at both ends.

**Scorpio (Oct. 24 - Nov. 22)**  
 Create a balance between work and play, professional and personal, for there are developments on all fronts. You can have it all, but only if you divide your time evenly. Professional drives position you for new work opportunities. There are also urgent developments in romance and creativity.

**Sagittarius (Nov. 23 - Dec. 21)**  
 You face professional pressure and an urge to adventure. If you're traveling for work you can kill two birds with one stone. Otherwise, stay professionally focused while keeping adventure alive. Stay focused but escape from it all whenever you get the chance.

**Capricorn (Dec. 22 - Jan. 20)**  
 Income confidence is rising, and

you're focused. Financial opportunities need attention. Yet you need balance between work and play.

**Aquarius (Jan. 21 - Feb. 19)**  
 Focus on your personal life remains, but your profession needs attention. Income is under pressure but poised for breakthrough, and work opportunities arrive at the right time.

**Pisces (Feb. 20 - March 20)**  
 For the first time in 59 years a Saturn/Jupiter opposition is playing out between your sign and your relationship sector, but this is work-

ing for you. Pressure is likely to be a wake-up call. Whether on the personal or professional fronts, be true to yourself and stop thinking about what everyone else wants.
