Rotary Club

Yabing Chen, better known as "Cherry," a Chinese exchange student being hosted by Sandy and Melany Wilks, was introduced as a guest at the Colby Rotary Club on Aug. 17. She will be attending Colby High School this year in the student exchange program.

Nick Wells announced that on Thursday the club will meet at 5:30 p.m. at the Farm Credit Services building at the corner of Range and College Drive to begin their bi-annual trash cleanup of both sides of the interchange on Range Ave. from the Farm Credit Services building to McDonalds. The trash pick up is a service agreement between the Rotary club and the state highway depart-

ment. Janice McCart told Rotarians the Ghana Clinic project has received over \$900 in cash donations and a good variety of over-the-counter supplies. Collections of donations will run through the end of August.

Thomas County Commissioner Paul Steele reviewed the 2011 Thomas County budget. He provided members with a very interesting and informative program as he discussed the various budget line items and answered questions.

The club meets each Tuesday noon in room 106 at the Colby Community College Student Union.

Time to replace smoke alarm?

A smoke alarm's distinctive chirp often is all it takes to remind a homeowner that it's time to replace the battery; like other appliances, however, the alarm also will need to be replaced periodically.

A smoke alarm has an eight-to-10-year life span, said Bruce Snead, Kansas State University specialist.

If an alarm is wired into the electrical system, a replacement should be installed by an electrician; if a battery-operated alarm, a homeowner often can install a replacement with tools such as a screwdriver.

Some newer models have adhesive backs and can be installed without tools.

Snead advises following instructions for installation.

It can be tempting to install an alarm within easy reach to simplify changing batteries, yet a ceiling installation is recommended because smoke and other gases rise,

he said.

He encourages homeowners to note the date of purchase on directions for a smoke alarm and other appliances before filing with appliance and household manuals.

Test batteries in a smoke alarm each month and replace batteries once or twice a year and/or at the first sign that they are no longer effective, Snead advised.

Periodically reviewing a family plan for escape in the event of a fire also is recommended, said Snead, who encourages buying and learning to use a fire extinguisher, and installing a carbon monoxide detector.
