#### **Public Notice**

NW KS GMD#4 WTAP Sign-up Starts October 1

The Kansas Department of Agriculture will be accepting applications during the period October 1 to November 15 for the Water Right Transition Assistance Program, WTAP.

WTAP is a voluntary, incentive-based program designed to help restore aquifers and streams in critical areas by retiring water rights. Six 'High Priority" units in the Northwest Kansas Groundwater Management District No. 4 have been designated as eligible target areas by the Chief Engineer because of significant water level declines. They have been designated to be in need of aquifer recovery and are now closed to further appropriations of water. These six areas in Chevenne, Sherman, Thomas, and Sheridan counties are also the subject of additional management program protocols being discussed with landowners by GMD#4.

Applicants who are selected for WTAP grants are compensated by the Kansas Department of Agriculture in exchange for the permanent retirement of water rights on irrigated land. Priority is given to retiring water rights in areas which would have the greatest impact on the aguifer system. A fixed rate price of \$2,000 per acre-foot of Historic Consumptive Water Use is available for eligible water rights to be retired. WTAP grants are approved on the basis of competitive bids.

To be eligible, water rights must have been actively used in the last 10 years. Dryland farming is permitted after a water right is retired. Limited irrigation can be temporarily allowed to establish a permanent cover on the land being transitioned from irrigation. Partial water right reductions can also be considered for retirement grants.

For more information, contact Steve Frost, Water Conservation Program Manager, at (785) 296-8964. WTAP rules and regulations, applications, maps, and other details are posted on the Kansas Department of Agriculture, Division of Conservation web site at www.scc.ks.gov . Information and assistance can also be provided at the Northwest Kansas Groundwater Management District No. 4 in Colby, (785) 462-3915, or at the Kansas Department of Agriculture, Division of Water Resources Field Office in Stockton, (785) 425-6787.
