Gardener

Most of us wouldn't know a genome from a giraffe.

For the record, a giraffe is a long-necked quadruped, found in the zoo and in African savannas, and has nothing to do with what you are about to read. But I think I have your attention now.

On the other hand, a genome, simply put in layman's terms, is a kind of road map of the genetic makeup of just about any organism you can name. If it were possible to "decode" that makeup, say of a tomato, then plant geneticists would likely have the capability of improving yield, nutrition, flavor, disease resistance and color of the tomato, as well as other crops.

Well, hang on to your spading fork and listen closely.

The decoding of the tomato genome, after decades of effort, has been accomplished. According to the journal Nature, May 31, 2012, the full genome sequence, as well as the sequence of a relative growing in the wild, has been completed, due to the cooperation of top scientists around the world.

A global organization known as the Tomato Consortium is responsible for the the breakthrough. Dr. James Giovannoni, a scientist at the Boyce Thompson Institute for Plant Research, located on the campus of Cornell University, led the American effort.

So what, you may ask, does all this mean to the average backyard tomato gardener?

Well, it so happens that a tomato possesses 35,000 genes, arranged on 12 chromosomes.

"Just name any characteristic of a tomato," Dr. Giovannoni said, "and we have captured virtually all those genes." That capture will

Goodland seeks photos

A new food safety series is intended to help at-risk populations reduce risks from foodborne illness

According to Karen Blakeslee, a K-State Research and Extension food scientist, the new publications include Food Safety for Pregnant Women, Food Safety for Older Adults, Food Safety for People with Diabetes, Food Safety for People with Cancer, Food Safety for People with HIV/AIDS and Food Safety for Transplant Recipients.

Each includes food safety basics, easy-to-read charts, checklists and lists of symptoms to help identify foodborne illness and know when to seek treatment, Blakeslee said. The publications are free, and can be downloaded at: www.fsis. usda.gov/fact_sheets/at_risk_&_

underserved_fact_sheets/index. asp.

To order the booklets, call the Meat and Poultry Hotline at (888) MPHotline, (888) 674-6854 weekdays between 9 a.m. and 3 p.m. (Central Time), or e-mail requests to fsis.outreach.usda.gov.

More information on food and food safety also is available at Extension offices and online at www. rrc.ksu.edu.

Weekend classes start Aug. 24 at college here

Colby Community College American History to 1865 is offering six weekend classes taught by Tom Moorhous and beginning Friday, Aug. 24.

English Composition I, taught by Connie Davis, will be held from 12:30 to 3:30 p.m. each Friday. The class is worth three college credits.

Art Appreciation I, taught by Rebel Jay, will be from 8:30 to of the material will be presented 11:30 a.m. Fridays.

Additional classes will be a combination of on-campus and

online. include Saturday classes

Intermediate and College Algebra taught by Diane Wetter. Michael Thompson will teach Introduction to Sociology from 2 to 5 p.m. Sundays. Students will meet 60 percent of the time in the classroom and 40 percent online.

For information or to enroll in the weekend classes, call the college admissions office at 460-4690.

Deaths

Murray L. Adrian

Murray L. Adrian, 89, Colby, retired owner/operator of the Colby Sears Store, died Saturday, Aug. 11, 2012, at his daughter's home in Wichita.

He was born Sept. 25, 1922, in Menlo, the son of John G. and Marie (Tucker) Adrian.

A brother, Duane Adrian, preceded him in death during World War II.

Survivors include his wife, Joan S. Adrian, Wichita; a son, Kevin D. Adrian, Topeka; a daughter, Karen K. Adrian, Wichita; a brother, Tim Adrian, Colby; a portant scientific breakthrough in sister, Rosemary Gordon, Nor-

ton; three grandchildren; and one great-grandchild.

Services will be at 10:30 a.m. Thursday, Aug. 16, 2012, at the Kersenbrock Funeral Chapel in Colby, with the Rev. James Mardock officiating and burial in Beulah Cemetery.

Visitation will be from 2 to 8 p.m. Wednesday at the funeral chapel.

The family suggests memorials in his name to be designated later, in care of the funeral chapel, 745 S. Country Club Dr., Colby, Kan., 67701.

Floyd E. Carter

Floyd E. Carter, 80, of Park, Kansas, died Aug. 5, 2012 at Hays, Kansas. He was born Dec. 3, 1931 at Conway, Arkansas. He married Mary Ward on Feb. 28, 1953. They made their home in Wichita, where he retired from Boeing Aircraft. They later moved to Park.

Floyd was preceded in death by a grandson, Shawn Spencer. He is survived by two sons, Danny Carter, Grainfield, and David Carter, Atwood; a daughter, Debra and husband Gerry Brown, Grainfield; one grandson, Chad Hanna and wife Melissa, Grainfield; one great grandchild, Brielle Lynn Hanna; two brothers, George Carter of Raleigh, North Carolina, and Melvin and wife Joann Carter, Conway, Arkansas; and one sister, Mary Lee and husband Carroll Williams, Conway, Arkansas. He will be missed by all that knew him.

The body was cremated, with memorial services at a later date. Memorials are suggested to the family to help with expenses. Condolences may be sent in care of Debra Brown, Box 166, Grainfield, KS, 67737.

Thank You

A journey led with fears of life

tears I shed of what I've sacrificed

it's not been long but still a lifetime ahead

of this battle I fight with every day I dread

Although I am the only one taking the brutality

I'm not alone in this at all in reality.

With a town and community by my side

to be a part of my adventurous ride

Strength and pride comes so naturally

with family and friends supporting me

Thank you can't cover the gratitude inside

For every single person in which I confide

Forever I will have appreciation

For all the participation and donations.
