Goodland librarian Janet Warren accepted a book donated to the Goodland Public Library from Matthew Barker on behalf of employees at the National Weather Service office in Goodland. The children's book "Not One Damsel in Distress," a collection of world folktales for strong girls, was a donation for Women's History Month. Other children of weather service employees were on hand for the presentation. They were (front row, left to right) Ian Bonsall, Benjamin Skipper, Causim Entwhistle and Kylie Buller and (back row, left to right) Lee Entwhistle, Stephen Buller, Kevin Barker and Julica Bonsall. # Women donate books to schools

#### WOMEN, from Page 1

took the role of Anthony as part of the group's Women's History Month activities. She said the American Association of University Women believes it's important for children to think about fairness and equality.

"It's important for them to know that men and women, boys and girls should be treated equally," she said.

Mary Isernhagen, the association secretary, said this month group members are taking turns visiting the school's library to either read or act out the biography of a famous woman. Porterfield said before Anthony, Annie Oakley made an appearance.

The group started the visits during Women's History Month last year, Porterfield said, and plans to keep it up for years to come. Last year, members organized a presentation on pioneer women for older students at North El-

happen this year. The group, however, is doing plenty tory books.'

to teach women's history. books dealing with women's issues to Central and West elementary schools.

"Rumpelstiltskin's Daughter," a twist on the classic fairy tale; "Sybil's Nightride," the story of a woman who did the same job as Paul Revere; and 'Tatterhood," fictional stories about women, will go to Central. And "You Forgot Your Skirt, Amelia Bloomer," the story of the woman who invented bloomers; and "The Paper Bag Princess," a story about a girl dragonslayer, will go to West.

Isernhagen said the group wants the books to be available to students. "I think it's important for girls to

know that there are women who have what they want to do," she said.

ementary, but, she said, that may not stepped out and done things," she said. "Sometimes that's glossed over in his-

Porterfield said the association also Isernhagen said members have set raises money each year to send a girl up a display in the window of Knott through the Future Astronaut Training Just Books, 1102 Main, and will donate Program at the Cosmosphere, a space museum and center, in Hutchinson, and holds other programs. On April 10, she said, the association will hold its annual "Jump Start Your Mind" workshop for third through sixth graders.

The event, which includes short workshops focusing on science, math and other subjects, will be held at North Elementary.

Porterfield said the group is also planning the "Sister to Sister" event for April, bringing junior high girls together to talk.

Isernhagen said all of the projects are aimed at boosting girls' self-esteem. "Girls need to know that they can do

cause of the dry conditions in the fall and hasn't had as much time to grow. He said if it gets dry, the wind will blow soil off the wheat fields, which can damage plants.

But, he said, so far Sherman County has been getting enough moisture to keep that from happening. A sparse stand can also cause a problem with blowing.

Stockton said less growth means more soil is exposed and then there is more of a chance of it blowing away.

He said because the wheat was planted late, it didn't grow as much in the fall, which is when wheat plants normally produce about 3/4 of their tillers, or secondary stems. Wheat only produces about 1/4 of its tillers in the spring, he added.

Stockton said there wasn't much or have more weight per grain.

## New plan is third finance proposal

vision for public education in Kansas," he said. "We're not going to spit in the eye of the governor, but the House is going to remain reluctant in terms of tax increases."

But Rep. Ralph Tanner, R-Baldwin City, chairman of the House Education Committee, was not thrilled with Graves' timing.

'The expectation has been raised so high through the governor's task force and other voices in the Senate and state Board of Education that we have what is approaching an impossible situation," Tanner said.

The governor's plan would be at

A coalition of Senate Education on accountability at early grade levels. Committee members has floated a proposal that would increase the state's sales tax to 5.5 percent over three years. That measure would raise an estimated \$75 million in fiscal 2002, which starts July 1: \$150 million in fiscal 2003: and \$225 million in fiscal 2004.

Sen. Jim Barnett, R-Emporia, has proposed an increase in taxes on beer, wine and strong liquor to raise about \$61 million for state aid to schools.

The House Appropriations Committee has endorsed a budget closely following the plan Graves outlined in his State of the State address.

The House Education Committee plans to roll out a proposal Thursday least the third school finance proposal. that incorporates its session-long focus In other action Monday:
