PROOF OF IDENTITY OF SCHOOL CHILDREN

S.B. 593 provides that whenever a child enrolls in a public or nonpublic school for the first time, the school board is required to secure proof of identity of the child. Proof of identity is either (a) a birth certificate for a child enrolling in kindergarten or the first grade, a copy of the court order placing the child in the custody of the Secretary of Social & Rehabilitation Services (SRS), or a certified transcript of other similar pupil record of a child enrolling in grades two through 12, or (b) any other documentary evidence that a board determines to be satisfactory proof of identity.

If proof of identity is not provided to the school board within 30 days of enrollment, the school board must notify the local law enforcement agency, which then must promptly investigate the identity of the child. No person claiming custody of the child may be informed of the investigation while it is occurring.

During the investigation regarding a child's identity, school personnel must provide law enforcement agencies with access to school premises. Unless school personnel and law enforcement agency personnel agree that their joint presence is not in the best interest of the child, school personnel must be present at all times when law enforcement personnel are conducting such an investigation on school property. In this regard, school personnel are subject to the confidentiality requirements of the Kansas code for Care of Children.

In addition, the law provides for:

1. Noting of a child's school records that such child has been reported as a missing child and maintaining any such record separately from other records;

2. Provision to a requesting school of proof of identity information by a school district which otherwise is withholding school records due to failure of the pupil to return or pay for school property;

3. Provision by the State Board of Education to a nonaccredited private elementary or secondary school of the registration of another such school from which a pupil transferred (this provision already applies to school districts and accredited nonpublic school) and

4. Treating as confidential any information gathered in the course of the investigation to establish the identity of the child, except as such information may be used in a criminal prosecution resulting from the investigation.
