Published in The Goodland Daily News, Goodland, Kansas, on August 21, 2001.

WATER DROUGHT/EMERGENCY ORDINANCE

ORDINANCE NO. 201

An ordinance authorizing the declaration of a water watch, warning, or emergency; establishing procedures and voluntary and mandatory conservation measures; authorizing the issuance of administrative regulations (Water Plan); and prescribing certain penalties.

Be it Ordained by the Governing Body of the City of Kanorado, that Chapter XV, Article 6 Water Conservation should read as follows:

15-601. PURPOSE. The purpose of this ordinance is to provide for the declaration of a water supply, watch, warning, or emergency and the implementation of voluntary and mandatory water conservation measures throughout the city in the event such a watch, warning, or emergency is declared.

15-602. DEFINITIONS.

(a) Water as the term is used in this ordinance, shall mean water available to the City of Kanorado for treatment by virtue of its water rights or any treated water introduced by the City into its water distribution system, including water offered for sale at any coin-operated site.

(b) Customer as the term is used in this ordinance, shall mean the customer of recording water for any purpose from the City's water distribution system and for which either a regular charge is made or, in the case of coin sales, a cash charge is made at the site of delivery.

(c) Waste of Water as the term is used in this ordinance, includes, but is not limited to (1) permitting water to escape down a gutter, ditch, or other surface drain, or (2) failure to repair a controllable leak of water due to defective plumbing. (d) The following classes of uses of water are established:

Class 1:

Water used for outdoor watering, either public or private, for gardens, lawns, trees, shrubs, plants, parks, golf courses, playing fields, swimming pools or other recreational area; or the washing of motor vehicles, boats, trailers, or the exterior of any building or structure.

Class 2:

Water used for any commercial or industrial, including agricultural, purposes except water actually necessary to maintain the health and personal hygiene of bona fide employees while such employees are engaged in the performance of their duties at their place of employment.

Class 3:

Domestic usage, other than that which would be included in either classes 1 or 2.

Class 4:

Water necessary only to sustain human life and the lives of domestic pets and maintain standards of hygiene and sanitation.

15-603. DECLARATION OF A WATER WATCH. Whenever the governing body of the City finds that conditions indicate that the probability of a drought or some other condition causing a major water supply shortage is rising, it shall be empowered to declare by resolution that a water watch exists and that it shall take steps to inform the public and ask for voluntary reduction in water use.

Such a watch shall be deemed to continue until it is declared by resolution of the governing body to have ended. The resolutions declaring the existence and end of a water watch shall be effective upon their publication in the official city newspaper.

15-604. DECLARATION OF WATER WARNING. Whenever the governing body of the City finds that drought conditions or some other condition causing a major water supply shortage are present, it shall be empowered to declare by resolution that a water warning exists and that it will recommend restrictions on nonessential uses during the period of warning. Such a warning shall be deemed to continue until it is declared by resolution of the governing body to have ended. The resolutions declaring the existence and end of a water warning shall be effective upon their publication in the official city newspaper.

15-605. DECLARATION OF WATER EMERGENCY. Whenever the governing body of the City finds that an emergency exists by rea-

son of a shortage of water supply needed for essential uses, it shall be empowered to declare by resolution that a water supply emergency exists and that it impose mandatory restrictions on water use during the period of emergency. Such an emergency shall be deemed to continue until it is declared by resolution of the governing body to have ended. The resolutions declaring the existence and end of a water supply emergency shall be effective upon their publication in the official city newspaper.

15-606. VOLUNTARY CONSERVATION MEASURE. Upon the declaration of a water watch or water warning as provided in Sections 15-603 and 15-604, the city council is authorized to call on all water consumers to employ voluntary water conservation measures to limit or eliminate non-essential water uses including, but not limited to, limitations on the following uses

- (a) Sprinkling of water on lawns, shrubs or trees (including golf courses).
- (b) Washing of automobiles.
- (c) Use of water in swimming pools and fountains.
- (d) Waste of water.

15-607. MANDATORY CONSERVATION MEASURE. Upon the declaration of a water supply emergency as provided in Section 15-605, the city council is also authorized to implement certain mandatory water conservation measures, including, but not limited to, the following:

- (a) Suspension of new connections to the City's water distribution system, except connections of fire hydrants and those made pursuant to agreements entered into by the City prior to the effective date of the declaration of the emergency;
- (b) Restrictions on the uses of water in one or more classes of water use, wholly or in part;
- (c) Restrictions on the sales of water at coin-operated facilities or sites;
- (d) The imposition of water rationing based on any reasonable formula including, but not limited to, the percentage of normal use and per capita or per consumer restrictions;
- (e) Complete or partial bans on the waste of water, and
- (f) Any combination of the foregoing measures.
- 15-608. EMERGENCY WATER RATES. Upon the declaration of a water supply emergency as provided in Section 15-605, the governing body of the City shall have the power to adopt emergency water rates by ordinance designed to conserve water supplies. Such emergency rates may provide for, but are not limited to:
- (a) Higher charges for increasing usage per unit of the use (increasing block rates);

(b) Uniform charges for water usage per unit of use (uniform unit rate); or

(c) Extra charges in excess of a specified level of water use (excess demand surcharge).

15-609. REGULATIONS. During the effective period of any water supply emergency as provided for in Section 15-605, the city council is empowered to promulgate such regulations as may be necessary to carry out the provisions of this ordinance, any water supply emergency resolution, or emergency water rate ordinance.

15-610. VIOLATIONS, DISCONNECTION'S AND PENALTIES.

(a) If the city officials charged with implementation and enforcement of this ordinance or a water supply emergency resolution or ordinance learn of any violation of any water use restrictions imposed pursuant to Sections 15-617 or 15-609, a written notice of the violation shall be affixed to the property where the violation occurred and the customer of record and any other person known to the City who is responsible for the violation or its correction shall be provided with either actual or mailed notice. Said notice shall describe the violation and order that it be corrected, cured or abated immediately or within such specified time as the City determines is reasonable under the circumstances. If the order is not complied with, the City may terminate water service to the customer subject to the following procedures:

- (1) The City shall give the customer notice by mail or actual notice that water service will be discontinued within a specified time due to the violation and that the customer will have the opportunity to appeal the termination by requesting a hearing scheduled before the City governing body or a city official designated as a hearing officer by the governing body.
- (2) If such a hearing is requested by the customer charged with the violation, he or she shall be given a full opportunity to be heard before termination is ordered; and
- (3) The governing body or hearing official shall make findings of fact and order whether service should continue or be terminated.
- (b) A fee of \$50 shall be paid for the reconnection of any water service terminated pursuant to subsection (a). In the event of subsequent violations, the reconnection fee shall be \$200 for the second violation and \$300 for any additional violations.
- (c) Violations of this ordinance shall be a municipal offense and may be prosecuted in Municipal Court. Any person so charged and found guilty in Municipal Court of violating the provisions of this

ordinance shall be guilty of a municipal offense. Each day's violation shall constitute a separate offense. The penalty for an initial violation shall be a mandatory fine of \$100. In addition, such customer may be required by the Court to serve a definite term of confinement in the city or county jail which shall be fixed by the Court and which shall not exceed 30 days. The penalty for a second or subsequent conviction shall be a mandatory fine of \$200. In addition, such customer shall serve a definite term of confinement in the city or county jail which shall be fixed by the Court and which shall not exceed 30 days.

15-611. EMERGENCY TERMINATION. Nothing in this ordinance shall limit the ability of any properly authorized city official from terminating the supply of water to any or all service connections as required to protect the health and safety of the public.

15-612. SEVERABILITY. If any provisions of this ordinance is declared unconstitutional, or the application thereof to any person or circumstance is held invalid, the constitutionality of the remainder of the ordinance and its applicability to other persons and circumstances shall not be affected thereby.

15-613. This ordinance shall become effective upon its publication in the official city newspaper. Passed by the governing body this 6th day of August, 2001
