public notice

**Notice of Annual Meeting of the Sherman County Conservation District**  
To qualified electors residing within the boundaries of the Sherman County Conservation District, notice is hereby given that pursuant to K.S.A. 2-1907, as amended, on the 24th day of February, 2003, at 6:30 p.m. an annual meeting of the Sherman County Conservation District will be held at the meeting of the Sherman County Conservation

District will be held at the VFW Hall, 8th and Main, Goodland, Kansas.  
The meeting agenda shall include the following business:  
**One:** The supervisors of the Sherman County Conservation District shall make full and due report of their activities and financial affairs since the last annual meeting.  
**Two:** They shall conduct an election by secret ballot of qualified electors, there present, of two supervisors to serve for a

term of three years from date of said meeting.  
The term of Lonnie Whiteker and Dean Graber is expiring. All in the county of Sherman in the State of Kansas.  
By Lonnie Whiteker, Chairperson, Sherman County Conservation District  
Attest: Sandra K. Rodgers, Manager/Secretary  
  
Published in The Goodland Star News on Tuesday February 11, and February 18, 2003.

Re-Elect Eric Gray USD #352 School Board

\*Experienced board member  
\*Informed about education issues  
\*Dedicated to help provide quality education for all children

Thank you for your vote on February 25.

Again. Medicare covered liquid therapy may be available if you qualify. MED-A-SAVE 1-800-224-1919 ext. KS0703.

A Complete Portfolio of Corn Protection

When considering how you'll protect your corn this year, consider a company with the industry's most complete portfolio. When it comes to controlling grasses or broadleaf weeds in conventional or Roundup Ready® corn and protection from insects or keeping nitrogen stable, Dow AgroSciences has you covered.

- Surpass®, TopNotch®, FulTime® and new Keystone® and Keystone LA herbicides contain acetochlor, the active ingredient rated by universities as the leader for soil-applied control of grasses and broadleaf weeds.
- Hornet® WDG herbicide controls large-seeded broadleaves like giant and common ragweed, velvetleaf, cocklebur and sunflower. Used pre- or postemergence, Hornet is the perfect partner with all grass herbicides for broad-spectrum, one-pass weed control.
- Glyphomax® Plus herbicide is our premier glyphosate offering, and controls more than 100 grasses and broadleaf weeds.
- Lorsban® 15G insecticide is the proven industry standard for control of corn rootworm, cutworms and many secondary pests. It returns the most profit, according to Purdue University trials conducted since 1991.
- N-Serve® nitrogen stabilizer – something the competition doesn't have – slows the conversion of fall- or spring-applied nitrogen to nitrate, which can leach and pollute waterways.
- Python® WDG gives soil-applied control of lambsquarters, pigweed and velvetleaf and controls triazine-resistant biotypes.

To learn more about the complete portfolio of Dow AgroSciences crop protection products, see your local ag retailer.
