Sherman County Historical Society June 13, 1903: Dewey Statement Chauncey Dewey has made a statement that four of the ranch men were wounded and three Berrys reported killed and two wounded. Three ranch riders' horses were killed. Hard feelings have existed between the Berrys and the ranch employees for two or three years past, more or less litigation has been on between them for this time.

The statement that four ranch men were wounded is disproved by Clyde Wilson himself in a letter to his father at Salina dated June 4 and printed in The Salina Journal. Concerning the shooting, he says: "We returned the fire with the result that three of them are dead and two wounded. We had one horse killed."

Report comes from a reliable source that Chauncey Dewey told him that if he couldn't get the Berrys out any other way, he would shoot them out. He has threatened other farmers in the path marked out by the company and has harassed them in the possession of their lands.

The controversy first started over the possession of land, the leasing of territory, etc. and is a long story. A fact which should be understood, but not generally known is, the Dewey Cattle company range over and attempt to control the use of land not their own.

I found a quick and painless cure.

When I developed hemorrhoids, my doctor recommended Hemcure...the painless, non-surgical treatment method performed by M.D.s. It took only a few short visits to the doctor's office. And since no recuperation was needed, I could resume my normal activities right away.

With Hemcure, curing my hemorrhoid problem was simple. Any cost, my insurance covered it.

Hemorrhoids aren't the easiest thing to talk about. But listen, if you've got hemorrhoids, why suffer? Do as I did and call to find out more.
