

# St. Francis grad honored by Pittsburg State

A St. Francis graduate is among those selected by Gorilla football letter winners to the all-time 100th Anniversary football team for Pittsburg State University's centennial celebration.

Andy Poling of St. Francis played for the Gorillas from 1996 to 1999. The 33-man team (35 individuals due to ties in balloting) comprises former Pittsburg State greats, ranging as far back as Joe Murphy (1932-33) to as recent as Matt Howard (1998-2001).

A total of 129 former players were on the ballot. To be eligible, candidates had to have earned National Association Intercollegiate Athletics or National Collegiate Athletic Association (NCAA) Division II All-America honors, induction into the Pittsburg State Athletics Hall of Fame, or be a member of the 50th Anniversary football team which was selected in 1953.

Current members of the Gorilla football team were not eligible.

The Pittsburg State Athletic Department mailed about 750 ballots in September to all living football letter winners that the University had a current mailing address for. Voting took place through early October.

"We're very excited to recognize this tremendous group of athletes," said Associate Athletic Director Tommy Riggs, who helped coordinate the balloting. "Each of these former players left an indelible mark on Pitt State football and helped shape the Gorillas' tradition of excellence. Most importantly, this group was selected from among their peers, and the group represents the cream of the crop from more than 1,000 former Pitt State football squad members."

The 100th Anniversary football team includes 32 former All-Americans, 23 members of the Athletics Hall of Fame and two members of the 50th Anniversary team.

The team members will be honored at half-time of Pitt's home football game against Missouri Western State College on Nov. 1. The 11 members of the 50th Anniversary football team, selected in

# The South shall rise again

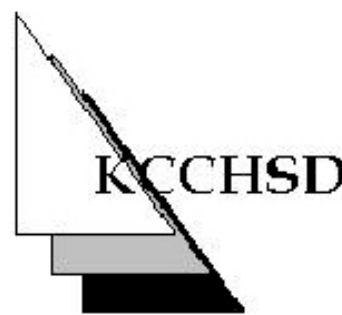

## The Imaging Staff

is pleased to announce the addition of their new GE HiSpeed FXI Cat Scan machine.

The image quality produced by this state-of-the-art single-slice helical scanner is superior and the time involved in completing CT exams is now significantly shorter. Another great advantage to our new CAT scan, our Imaging Department can now provide more

advanced CAT Scan Test in-house, eliminating the need for patients to travel out of the area for additional testing. Also the Imaging Department can perform the following exams: Pulmonary embolisms, High Resolution Chests, Bone Reconstructions....as well as Abdomen, Pelvis, and Brain scans.
