

Better information offered to summer travelers

Memorial Day weekend and the summer travel season have arrived.

The Kansas Department of Transportation's improved information resources can help travelers plan their trips and check road conditions as they travel.

Call 511 anytime from any phone in Kansas or 1-866-511-KDOT (5368) from anywhere in the U.S. to find out about the latest driving conditions, construction detours, and travel weather information for the Kansas Turnpike and any Interstate, U.S. or state highway in Kansas and Nebraska. Weather conditions update every 15 minutes.

Summer brings the height of road construction projects, and travelers may encounter work zones or detours. By calling 511 before traveling, people can find out if their routes are impacted by road work and make other plans as needed.

The Kansas 511 Advanced Traveler Information System and the web site <http://511.ksdot.org> can help make trips safer and less frustrating.

A phone number is provided for Motor Carrier Information such as registration, permits and credentials. Information is free from a landline phone; however, for cellular phone users, cell minutes

may apply but there should be no roaming fee.

The phone system has been enhanced, and callers may now indicate the direction they are traveling to hear reports given in the direction they are traveling. New landmark descriptions should make route area recognition easier for callers to understand or locate on a map. The menu has changed so callers who want information for Nebraska can select number 7 for information in other states.

Road condition and work zone information is supplied by state highway crews across the state. The same information is available

on the 511 web page at <http://511.ksdot.org> or through the Department of Transportation's main web site, www.ksdot.org, under "Road Conditions."

Still camera views were added to the web page this spring at eight locations on Kansas highways. The images are updated several times each hour. To view the images, click on the camera link at the top of the 511 Traveler Information web page. Those using Internet Explorer as their browser can access the images by clicking on the camera icons on the road condition map.

Travelers can use their handheld mobile devices, such as Smart-

phones or Blackberries to access a text report for construction project information by visiting <http://511mm.ksdot.org>.

This travel season, KDOT reminds travelers to stay informed, wear their seat belts and watch out for motorcyclists.
