

Check out the Christmas lights

Goodland encourages holiday lights

From the looks of the decorated houses around town many people have taken advantage of the City of Goodland's special electric discount to help light up the holidays. Driving around in the evening one gets to see a wide variety of decorations and we expect most of them to remain lighted through the end of the year.

The city declared in November that all city electrical accounts would receive a 10 percent discount on their bill for the month of December. City Clerk Mary Volk said this would show up on the bills people receive at the end of January as the December reading will be taken at the beginning of January.
