Financial plan for year may lead to state help

As a business owner looking at your financial plan for 2010, you may be thinking about expanding your business with the addition of employees or capital investment, and are looking at training new or existing employees.

If any of these apply to you — we need to talk!

Capital budget planning time presents an opportunity to determine what incentives and programs the State of Kansas has to assist your company in defraying costs of equipment, expansion (new equipment, processes and employees), training components, etc. We would like the opportunity to discuss savings or funding in the form of:

- Sales tax exemption on new investment based on job creation.
- Forgivable and low interest loans (expansion projects) with new job creation.
- Grants for training new or existing employees.
