LEGAL PUBLICATION
Results of the market study analysis for Sherman County for the Assessment Year 2010.

Pursuant to L.191,CH.279 2.

A study of the residential real estate market indicated that the market is stable with no general upward or downward trend.

A study of the commercial real estate market indicated that the market is stable with no general upward or downward trend.

A study of the real estate market for vacant land indicated that market is stable with no general upward or downward trend.

Value on specific properties may not follow the general trend because of change in the property, correction of description information or adjustment values based on sales of similar properties.

In accordance with K.S.A. 79-1476, the Division of Property Valuation is required to annually furnish each county the results of its study relating to changes, if any, of the use value of agricultural land. Changes can and do occur as a result of several factors including cropping practices, commodity prices and production costs.

The study relating to use value of Agricultural Land completed

by the Division of Property Valuation indicated the following changes compared to the prior year:

All Grassland: No change in value on all soil mapping units

Dry Cropland: Decrease of \$6.00 to \$12.00 per/acre on majority of soil mapping units

Irrigated Cropland: Increase of \$4.00 to \$7.00 per/acre on predominately irrigated soil mapping units

Terry Ballard
Sherman County Appraiser
