

Goodland High School seniors to be honored

Goodland High School seniors Alexis Bateman, Landon Brenner, Jay Cotter, Ismael Garcia, Brook Redlin and Ben Waugh will be named Kansas Honor Scholars at 6 p.m. (Mountain Time) on Wednesday, April 7, at Colby Community College Student Union, 1255 W. Range Avenue, Colby. The award is given by the University of Kan-

sas Alumni Association and KU Endowment.

Each student will get an American Heritage Dictionary in hardback and electronic versions from Danny Lewis, assistant director of the KU Alumni Association.

The local contact is Jeff and Nona Mason.

Other area students are:

Stefanie Eicher from Brewster High School.

Naomi Reeh from Cheylin High School.

Gray Henry, Jacob Hutfies, Anna Juenemann, Kalen Rasmussen, Jacob Rose, Collin Rous and Keesa Wright from Colby High School.

Ashley Horton, Kira Meitl and Adrienne Paul from Decatur Com-

munity High School.

Issac Broeckelman, Janathan Broeckelman and Shaun Gilbert from Golden Plains High School.

Mackenzie Carman and Jenna Patmon from Hoxie High School.

Rachel Gosser, Caleb Jurey, Danielle Keller, Brandon Maurath, Matthew Temaat, Skyler Whittman and Austin Zerr from Oakley High

School.

Jill Bergling, Wendy Fields and Kevin Walters from Rawlins County High School.

Brooklyn Hnizdil and Trent Raile from St. Francis Community High School.

Jerri Williams from Triplains High School.

Kenzi Knobbe, Gabrielle Kuhl-

man, Taylor Pearce and Kelly Van Laeys from Wallace County High School.

Payton Walker from Weskan High School.

Layne Ostmeyer and Taylor Ostmeyer from Wheatland High School.

Best time to prune hybrid roses is spring, before growth

The best time to prune roses is in the spring before new growth appears and after the danger of a killing frost has passed.

Be sure to remove dead stubs. Otherwise, canker fungi may invade stubs and progress into healthy tissue during the summer.

Use sharp shears and make cuts at a 45-degree angle about a quarter-

dana belshe

• **ag notebook**

inch above healthy buds. How much to prune after dead wood removal

depends on the type of roses.

For shrub roses, pruning consists of removing dead wood. This article focuses on hybrid tea roses.

There are three pruning styles for hybrid-tea roses, each with a

specific purpose. Heavy or severe pruning is done on well-established, vigorous plants to produce large, showy flowers. Prune back to three or four healthy canes with three to six eyes per cane. Canes normally will be 6 to 12 inches long.

Moderate pruning is done on well-established, healthy plants and is designed to increase the number

of flowers produced rather than increase flower size. Leave five to six healthy canes with at least seven buds per cane. Prune stems to 12 to 18 inches long.

Light pruning rejuvenates plants after years of neglect or may be performed on newly established plants. Leave five to seven canes of about 18 inches or more in length.

This helps maximize leaf area for energy production and rejuvenates plants.

If your plants suffered a significant amount of winter damage, they may need to be cut back more severely than even the heavy-pruning style. This will result in a few large flowers. In this case, it is your only option.
