

Cowboys looking forward with anticipation

By Jeremy Mills
j.mills@nwkansas.com

Typically the Goodland Cowboys are a smash mouth running team with not a lot of passing involved in the offense. Two years ago Coach Kent Teeter had an unconventional new idea for Cowboys football. It was a new kind of offense: the spread. Not only that, it was also no huddle.

The spread is a four wide receiver, one running back, shotgun formation and the no huddle is a faster paced offense, calling out the plays from the sidelines to the players with hand signals, trying to tire the defense. Teeter has been widely criticized by fans and even sometimes players, saying “We

Mills

just aren’t built for the spread,” or “It’s too complicated.”

That was two years ago, and the third season is about to begin. The young, tentative, and confused sophomore class has grown into the experienced, hungry, and determined seniors.

This will be the third year they have worked under Teeter and his staff. He preaches “Don’t think about it, just do it!”

The Cowboys seem as if they finally understand that, having matured and went through the hard times and growing pains of learning the complicated offense and becoming a team along the way.

Junior Riley Oharah said he feels more

confidence in his teammates than he ever has. It took two years, but he feels they did it. The players worked hard in the hot days of early fall doing plays over and over again, sacrificing late nights so they can be in the weight room at 6 a.m. in the summer.

Receiver coach Donald Raymer described the team as more experienced and was on the same page with Oharah about becoming more comfortable with teammates, saying that comes with playing together for multiple years.

He was high on the players wanting to compete for a starting position, “We have four guys at running back that really want to play there and are fighting hard for that top spot,” he said. “At the receiver spot, we have six guys returning who all played last year, and then underclassmen who want to

get on the field.”

Raymer and Senior Robert Cowan spoke a lot on getting comfortable with game speed. “Coming from Junior High or JV, the speed of the game just isn’t the same. It takes a year or two for it to slow down.”

At a seven on seven practice in July, it was obvious the attitude from last year to this year has been nothing short of a complete 180 degree turn.

Everything looks smooth, crisp, and fast. One could see players giving that little extra effort to make every play work. Laying out for a dangerous catch over the middle, running every route hard even if the play is going to the opposite side, and even underclassmen on scout team playing hard so the offense has good competition.

The light bulb seems to have turned on,

and with the teams talent and now knowledge of the offense, they look ready.

When asking Cowan what his predictions were on the season, he gave an answer I believe his coach would approve of and agree with. “If we keep our minds right and not think we have won anything already, keep working hard this summer, and take it one game at a time, there’s no reason we cant go deep in the playoffs.”

Editor’s note: Jeremy Mills, 17, is a senior at Goodland High School and will be helping with some coverage of the Cowboys this fall. He is the son of Joe and Patty Mills of Goodland.

Fall sports practice begins on Monday for football, volleyball, cross country and girls golf.

Farminator pulls in small block competition

Richard Bauman of Goodland was fourth in the small block tractors on Friday in Farminator with a pull of 255.5 feet.

Goodland natives start final college seasons

By Greg Stover
g.stover@nwkansas.com

In less than a month two Goodland natives will begin their final seasons of NCAA Division I athletics.

Former Goodland Cowboy Mark Starr, a senior offensive lineman at Colorado State University, begins his last season as a Ram on Saturday, Sept. 4, against the Colorado Buffaloes at Mile High Stadium in Denver.

Dani Bedore, a 2007 graduate of Brewster High School, is a senior volleyball player for the University of Wyoming. The Cowgirls open their season on Friday, Aug. 27, during a tournament at home in Laramie against Southern Utah University.

Both Colorado State and Wyoming are members of the Mountain West Conference.

Starr, a 2006 Goodland High graduate, redshirted his first year at Colorado State then played in all 25 games during the 2007 and 2008 seasons starting in seven games the first year and four the next. In 2009 he played in 10 games for the Rams with five starts while missing two games in mid-October due to injury.

Starr, who wears No. 78, is listed first on the Rams’ depth chart at strongside tackle. He is the son of Neal and Brenda Starr of Goodland. Bedore, who attended Goodland

High her freshman and sophomore years, played her first season of college volleyball at the University of South Carolina. She played in 29 matches for the Gamecocks.

In her two seasons at Wyoming, Bedore has started in all 56 matches for the Cowgirls. Last season she was second on the team in service aces with 29 and fourth in kills with 226.

Wearing No. 1, Bedore is one of six returning starters for the Cowgirls who went 13-18 overall last season. She is the daughter of Dustin and Barb Bedore of Goodland.

Like puzzles? Then you’ll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

Here’s How It Works:

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

Tuition indicated is for Kansas residents only. Refer to tuition note below for non-resident rates.

Tuition is \$87.00 per credit hour for Kansas residents; \$132.00 per credit hour for non-residents; \$103.00 per credit hour for border residents. Border residents are any residents of Colorado, Nebraska, Oklahoma, Texas and Missouri. Some laboratory classes may have a special course fee. Textbooks are an additional fee and will be announced by the instructor.

Tuition is due within two weeks of the class start date unless arrangements have been completed for the FACTS Automatic Payment Plan.

***MANDATORY PLACEMENT:** Students are required to take the placement testing prior to enrolling in their first English or Math class. Testing allows students to demonstrate readiness for coursework through their ACT and/or COMPASS placement test. The actual printout of the scores must accompany the enrollment form. Testing must be completed before the start of class and scores must fall within the range indicated in the Mandatory Placement Guide.

EN 176 English Composition I: ACT English score of 18 or above and Reading score of 18 or above or COMPASS Writing score of 55 or above and Reading score of 73 or above

MA 178 College Algebra: ACT Math score of 22 or above or COMPASS Math score of Algebra 50-100, College Algebra 0-43

Any student still needing to take the COMPASS test should contact Miss Jackie Elliott at Goodland High School.

For additional information contact: Sharon Hall (785) 899-5930
