

# AG WEEK 2012

## Ag Day March 8, 2012

Kansas has a history and a future unlike any other state. Kansans have pride and peace in knowing that this richly exciting ecosystem—their richly exciting ecosystem—is the heart of America in more ways than one.

We have so much to be proud of in our state. Agriculture is the No. 1 industry in Kansas, with aircraft manufacturing and education close behind. Approximately 90 percent of Kansas land is for agricultural use, and the state ranks high in wheat, grain sorghum and silage production.
