

Many attractions at Flatlander

The Flatlander Festival includes many different types of events such as the motorcycle gauntlet (left), the parade of motorcycles and cars (above) and the Valve Cover Races (below, middle). Some of the main attractions are the Brick Top Cruisers' Car Show, featuring classic (below, middle) and modern cars, and the Northwest Kansas Bike Show (far right). Last year's Flatlander Festival was also one of the final events in the Take Charge Challenge (right), a competition between Goodland and four other northwest Kansas communities to see who could make the most energy efficient upgrades. Goodland was able to count several thousand participants toward its point total for the challenge. During the day-long festival, crafts and games are available up and down Main Street. One game last year involved hitting a target with water from a fire hose (below, right).
