## Everybody knows that adjustable beds are...

...adjustable. But who makes them? Where do they come from? Unlike some highly advertised brands, Flex-a-Bed makes its own from top to bottom...and it's great! You select the most comfortable position at the touch of a button, change whenever you want. A pair of twins, side by side as shown above, make up to look like a king-size bed, yet allow each of you to raise or lower your side independently. Flex-a-Bed is sold right

here in town... for about the price of a top quality flat bed. So don't be confused by the ads. Come see it here today or call for free video!
